1. Introduction

The Sydney Zoo site is located approximately 33 kilometres west of the Sydney Central Business District (CBD), and approximately 15 kilometres east of Penrith. It falls within the Western Sydney Parklands and is in close proximity to the Great Western Highway, M4 Western Motorway and Westlink M7, providing excellent access to both the state and regional road network and surrounding parkland areas.

1.1. The SSD 7228 Consent

On 8 September 2017 the Planning Assessment Commission (PAC) approved SSD 7228 for the construction and operation of a zoological facility within the Western Sydney Parklands, the Sydney Zoo. The development provides a new recreational facility for Western Sydney which opened to the public on 6 December 2019.

The development, as approved by the PAC, comprised a zoological facility containing animal exhibits and associated infrastructure over the site, being a total area of approximately 16.5ha, for the following key components:

- Animal exhibits across several enclosures of varying design for a range of native and exotic animals.
- Back-of-house buildings for exhibits.
- Main entrance building comprising entry/exit, and gift shop.
- Restaurant and café, kiosks and amenities.
- Educational show arena.
- Picnic areas and gardens.
- Wetlands and waterways.
- Service building containing administration areas; curatorial and food preparation areas; and veterinarian space.
- Service yard with maintenance shelter.
- Internal services and utilities to support the zoo, including water, sewer, electricity and telecommunications.
- Car parking for approximately 1,053 vehicles, bus and coach parking.
- Associated signage and landscaping.

A number of modifications have been lodged and approved by the Department of Planning and Environment (DPE) since the consent was issued and as a result of design development refinement:

- **Modification 1:** This modification related to the reconfiguration of exhibits, buildings and back-of-house facilities within the site, and was approved by DPE on 8 May 2018.
- **Modification 2:** This modification related to the reconfiguration of the aquatic habitat, realignment of the boardwalk access path and amendments to the Landscape Masterplan and was approved by DPE on 20 September 2018.
- **Modification 3:** This modification sought approval for minor changes to (then) approved hours of operation and was approved by DPE on 25 November 2019.
- **Modification 4:** This modification related to the addition of new back of house sheds to support the operation of the zoo, and was approved by DPE on 25 November 2019.
- **Modification 5:** This modification sought approval for minor amendments to (then) Condition B7 relating to exotic animals, however this application was withdrawn.
- **Modification 6:** This modification related to proposed design changes to the Farm Experience exhibit, and was approved by DPE on 3 June 2020.
- **Modification 7:** This modification sought approval for a minor change to the (then) approved operational scope of the zoo in the form of extended operating hours, and was approved by DPE on 28 June 2021.
- **Modification 8:** This modification related to the installation of a permanent Ferris wheel as an additional guest experience offering, and was approved by DPE on 15 February 2022.
- **Modification 9:** This modification seeks amendments to Condition B10C, which imposes a 300-person visitor cap between the hours of 7:30am and 9:00am, and was approved on 22 August 2022.
- **Modification 10:** This modification sought to add two new animal exhibits and associated back of house facilities. It was approved on 23 November 2022.
- **Modification 11:** this modification deleted condition B9 to permit flying birds to be displayed within existing exhibits at the zoo and was approved on 5 December 2023.

1.2. Condition D7

Condition D7 of the SSD7228 consent imposes the requirement for an Annual Review to be carried out of the development.

ANNUAL REVIEW

D7. Each year, unless otherwise agreed by the Planning Secretary, the Applicant shall review the environmental performance of the Development to the satisfaction of the Planning Secretary. This review shall:

- (a) include a comprehensive review of the monitoring results and complaints records received by the Development over the previous calendar year, which includes a comparison of these results against the:*
 - i) relevant statutory requirements, limits or performance measures/criteria;*
 - ii) requirements of any plan or program required under this consent;*
 - iii) monitoring results of the previous years; and*
 - iv) relevant predictions in the EIS;*
- (b) identify any non-compliance over the last year and describe the actions that were (or are being) taken to ensure compliance;*
- (c) identify any trends in monitoring data over the life of the Development;*
- (d) identify any discrepancies between the predicted and actual impacts of the Development and analyse the potential cause of any significant discrepancies;*
- (e) describe what measures will be implemented over the next year to improve the environmental performance of the Development; and*
- (f) verify the total daily visitor numbers for private zoo experiences / small group tours commencing between the hours of 7:30 am and 9 am has not exceeded the limit of 1,500 persons and include an outline of management actions to be taken to address any exceedance of the limit on visitor numbers and ensure ongoing compliance with the requirements of this consent.*

This report forms the Annual Review per Condition D7.

2. Previous Report Actions

This section identifies the previous Annual Review reports submitted, and actions arising from each as relevant.

Table 1 Previous Annual Reviews

Previous Annual Reviews	Date Submitted to DPE	Date Approved by DPE
Annual Review 2020-2022 (AR 2020-2022)	19 December 2022	1 May 2023 DPE considered the late submission of the 2020 and 2021 periods in accordance with compliance policy and determined to record the breach with no further enforcement action.
Annual Review 2023 (AR 2023)	3 April 2024	23 May 2024 DPHI provided commentary of additional detail required to satisfy the requirements for monitoring and compliance.

Table 2 Actions Required from Previous Reviews

Source	Consent Condition	Action Proposed	Proposed Completion Date	Status	Action Completed
AR 2020-2022	D11 - Auditing	Carry out Independent Environmental Audit	2023	Completed in 2024	Completed in 2024
AR 2023	Condition C5C	Obtaining a Traffic Verification Report to confirm the traffic numbers for the early morning activities.	2024	Traffic Verification Report submitted on 24 October 2024 and approved by DPHI on 11 November 2024.	Completed 11 November 2024.
AR 2023	Condition C32C(b)	Obtaining a Noise Verification Report for the twilight concert to remove the limit on temporary and community events.	2024	Noise Verification Report submitted to DPHI on 11 December 2024.	Pending DPHI approval.
AR 2023	Condition D11	Obtaining an Environmental Audit for the development.	2024	Complete. Environmental Audit was submitted to DPHI on 2 August 2024 and confirmed as satisfied on 23 October 2024.	Completed 23 October 2024.

3. Compliance Status Summary

The statement of compliance for the 2024 reporting period is contained below. In the 2024 year, the second Independent Environmental Audit (IEAR) under Condition D11 was carried out, which has been utilised to assist in determining this compliance status.

Table 3 Statement of Compliance

Were all conditions of the relevant approval complied with?	
SSD 7228	Yes / No

The following outlines the compliance status of conditions of consent. The status of each is per the following coding. **Appendix A** provides a full compliance table of the SSD Consent.

Table 4 Compliance Status Coding

Colour	Status	Description
	Compliant	The proponent has collected sufficient verifiable evidence to demonstrate that all elements of the requirement have been complied with.
	Non-compliant	The proponent has identified a non-compliance with one or more elements of the requirement.
	Not triggered	A requirement has an activation or timing trigger that has not been met at the phase of the development when the compliance assessment is undertaken, therefore an assessment of compliance is not relevant.

3.1. Non-Compliances

The table below outlines the relevant conditions and their non-compliance status as identified in the IEAR and through the monitoring of the Annual Review period.

Table 5 Conditions of Consent for Compliance

Condition #	Condition Description	Compliance Status	Comment
C32B Noise Verification Report	<p>Within six months of the commencement of operation of the Development the Applicant must prepare a Noise Verification Report for the Development to the satisfaction of the Planning Secretary. The report must:</p> <ul style="list-style-type: none"> a) be prepared by a suitably qualified acoustic consultant, with qualifications and experience consistent with the technical eligibility criteria for membership to the Association of Australian Acoustical Consultants or the Australia Acoustical Society; b) be prepared in consultation with Council; c) include an analysis of compliance with the noise limits specified in Condition C32 for all activities specified in Condition B10; d) include an outline of management actions to be taken to address any exceedances of the limits specified in Condition C32; and e) describe contingency measures in the event management actions are not effective in reducing noise levels to an acceptable level. 		DPHI have confirmed that this matter is considered closed given this has been previously considered and addressed via letter on 12 August 2022. This item will no longer be considered non-compliant moving forward, rather will be considered non-triggered.
C32C Noise Verification Report	<p>A Noise Verification Report must be submitted to the satisfaction of the Planning Secretary at the following stages of the Development:</p> <ul style="list-style-type: none"> a) within three months of the conclusion of the Sydney Zoo Light Festival 2021 event held at the site in July and August 2021 or an equivalent temporary and community event agreed to by the Planning Secretary; and b) within three months of the conclusion of the first twilight concert event held at the site. 		A Noise Verification Report has been submitted to DPHI for assessment on 11 December 2024 and is pending a response. Once a response is received, this condition will be considered closed.
D11 Auditing	<p>Within two years of the date of this consent, and every three years thereafter, unless the Planning Secretary directs otherwise, the Applicant shall commissions and pay the full cost of an Independent Environmental Audit of the Development. The audit shall:</p> <ul style="list-style-type: none"> a. be conducted by a suitably qualified, experienced and independent team of experts whose appointment has been endorsed by the Planning Secretary; b. include consultation with the relevant agencies; c. assess the environmental performance of the Development and assess whether it is complying with the requirements of this consent and any other relevant approvals (including any assessment, plan or program required under these approvals); d. review the adequacy of any approved strategy, plan or program required under the abovementioned consents; and e. recommend measures of actions to improve the environmental performance of the Development, and/or strategy, plan or program required under these consents. <p>Note: This audit team shall be led by a suitably qualified auditor and include relevant experts in any other fields specified by the Planning Secretary.</p>		Sydney Zoo acknowledges this – the next IEA will be carried out in early 2027 and submitted by June 2027 to ensure compliance with this condition. This will be considered non-triggered for the 2025 and 2026 Annual Reviews.

3.2. Independent Environmental Audit Report

An IEAR was commissioned by the Zoo with Geosyntec appointed as the independent auditor (and approved by DPHI on 25 March 2024).

The IEAR was carried out across April, May and June 2024, and submitted to DPHI on 2 August 2024, with Sydney Zoo responses to matters raised. The DPHI confirmed that the IEAR satisfied the reporting requirements of the SSD-7228 consent on 23 October 2024.

The IEAR identified the following with the SSD Conditions of Consent:

- Number of compliances: 96 items
- Number of non-compliances: 3 items
- Number of non-triggered: 76 items

Further detail is provided in the IEAR as appended.

3.2.1. Audit Recommended Annual Review Inclusions

The IEA provided recommended inclusions in this Annual Review. These have been included in the relevant sections following where from a management plan or the like.

3.2.2. Response to Audit Recommendations Actions

Sydney Zoo provided a response to the IEA recommendations as part of the submission to the DPHI, outlining a number of actions to be carried out. The status of these actions are, as of the end of 2024, outlined in the detailed table provided at **Appendix B**.

3.3. Operational Environmental Management Plan Update

As the Zoo has been operating for a period of five years (inclusive of COVID-19 shutdown periods), a detailed review of the approved OEMP (dated 5 April 2019) is currently being carried out, following on from previous reviews completed by the Zoo.

This is anticipated to be completed in the first half of 2025.

The OEMP review involves updates to the relevant management sub-plans and is being carried out based on changes to conditions of consent from multiple modifications, and operational activities and processes being further refined since operation commenced.

3.4. Monitoring Outcomes

The following items are monitored on-site.

Table 6 Monitoring Outcomes

OEMP Reference	Description	Monitoring Outcome
D7(f)	Verify the total daily visitor numbers for private zoo experiences / small group tours commencing between the hours of 7:30 am and 9 am has not exceeded the limit of 1,500 persons and include an outline of management actions to be taken to address any exceedance of the limit on visitor numbers and ensure ongoing compliance with the requirements of this consent.	Visitor numbers are monitored daily. No exceedance has been recorded in the monitoring period.
OEMP Section 6.1.1	Conduct water sampling at the five sample locations twice per month in accordance with the Water Quality Monitoring Plan	Monitoring carried out – refer attached monitoring results at Appendix E , noting the EPA have previously indicated, in response to Condition C12, that no regulatory role is held and as such, it is considered no further monitoring is required noting the EPA

OEMP Reference	Description	Monitoring Outcome
		confirmed no further comments. Confirmation from the EPA has been requested as of 26/2/2025.
	Monthly inspection of stormwater quality devices, swales, wetlands and pond systems and maintenance as required.	Compliant. Inspections are carried out monthly.
OEMP Section 6.1.2	Monitor quantities (volume and/or weight) of waste recovery in to determine whether storage areas and collection frequencies are adequate.	Compliant. Waste is monitored and tracked, and waste storage areas and collection frequencies are considered adequate. Refer Appendix F .
	A review shall be incorporated into routine management meetings to assess the efficiency of the waste management regime and identify strategies to improve waste management at the facility.	Compliant. Waste management is a standing agenda item on management meetings.
OEMP Section 6.1.3	Monitor relationships with key stakeholders through the avenues described above (community liaison group, phone line).	Compliant. This is a continuous process through phone and social media work.
OEMP Section 6.1.4	Measure distance travelled by electric vehicles annually	<p>Compliant. Distances across the electric vehicles travelled are below:</p> <ul style="list-style-type: none"> Natives : 1992km for the year Carnivores: 1502km for the year Primates: 1336km for the year Ungulates: 2051km for the year Horticulture: 2039km for the year <p>Other electric vehicles are measured by hours.</p>
OEMP Section 6.1.5	Visitor survey to identify the mode used by guests to arrive and depart the site.	<p>Visitor survey carried out frequently. Key findings include the following modes of travel:</p> <ul style="list-style-type: none"> Car = 95.75% Bus = 4.25%
	Biannual traffic counts and carpooling counts (average people per vehicle),	Compliant. Pending latest results from late 2024, but previous indicates approximately 3.3 persons per car.
	Annual review of the Work Place Travel Plan, in consultation with staff.	<p>A Work Place Travel Plan staff survey was conducted in September 2024. The Plan is to be revised in consultation with staff based on these results, in 2025.</p> <p>Modes of transport used by staff from the survey are:</p> <ul style="list-style-type: none"> Private vehicle = 87.95% Public transport 8.43% Ride share 1.20% Other 2.41%
OEMP Section 6.1.7	Regeneration monitoring at the beginning and end of the establishment period	Compliant.
	Monitoring is also to be undertaken annually every year during the maintenance period until the completion of management works	Compliant.
	Keep a record of native animal visitations (e.g. birds and mammals)	Compliant. iNaturalist app used to record sightings.
OEMP Section 6.1.8	Maintenance of interpretive information	Compliant. Completed on regular basis and in satisfactory condition.

OEMP Reference	Description	Monitoring Outcome
OEMP Section 6.1.9	Annual inspection of interpretive information.	Compliant. Completed on a regular basis.
	Annual review of Aboriginal Heritage Experience Strategy with provider and relevant Aboriginal stakeholders (including Aboriginal employees)	Compliant. Strategy has recently been updated in draft form, to form part of expected modification to SSD Consent in 2025.
OEMP Section 6.1.10	Monitor water main and sub-meters to detect leaks, monthly	Compliant. Completed on a continuous basis.
	Monitor electrical main and sub-meters, monthly	Compliant. Completed on a continuous basis.
	Monitor distance travelled by electric vehicles on site annually	Compliant. Completed on a continuous basis.
OEMP Section 6.1.11	Annual review of hazardous materials and dangerous goods to ensure Materials Safety Data Sheets are available.	Compliant. Completed on a continuous basis.
	Non-compliances with Workplace Health and Safety requirements	Compliant. Register maintained.
	Annual stocktake of Dangerous Goods and storage volumes assessed against quantities set out in the Department of Planning's Applying SEPP 33 Guideline.	Compliant. Register maintained.
OEMP Section 6.1.12	Inspect buildings and vegetation for bushfire risks by 1 September every year to prepare for the bushfire season	Compliant. Completed on a continuous basis.
	Annual monitoring as per Biodiversity Management Plan	Compliant. Register maintained.
	All other items stipulated in Compliance Reporting Post Approval Requirements (Department 2020) (CRPAR) https://www.planning.nsw.gov.au/assess-and-regulate/about-compliance/inspections-and-enforcements/compliance-reporting-post-approval-requirements).	

3.4.1. Trade Waste Analysis

Since opening in December 2019, Sydney Zoo has put in place trade waste monitoring in accordance with the requirements of Sydney Water for its trade waste.

3.5. Satisfaction of Conditions of Consent for Compliance

The following conditions are considered key conditions to confirm compliance. A detailed review was completed within the IEAR carried out in 2024. **Appendix A** contains a detailed compliance table.

3.5.1. C4 Operating Conditions

The Applicant shall ensure:

- (a) *internal roads, driveways and parking (including grades, turn paths, sight distance requirements, aisle widths, aisle lengths and parking bay dimensions) associated with the Development are constructed and maintained in accordance with the latest version of AS 2890.1 and AS 2890.2;*
- (b) *the swept path of the longest vehicle entering and exiting the site, as well as manoeuvrability through the site, is in accordance with the relevant AUSTROADS guidelines;*
- (c) *heavy vehicles and bins associated with the Development are not parked on local roads or footpaths in the vicinity of the site;*
- (d) *all loading and unloading of materials is carried out on-site;*
- (e) *all trucks entering or leaving the site with loads have their loads covered and do not track dirt onto the public road network; and*
- (f) *the proposed turning areas in the car park are kept clear of any obstacles, including parked cars, at all times.*

Sydney Zoo can confirm this condition is being met during operation of the facility.

3.5.2. C4A Coach Layover Areas

The Applicant must ensure:

- a) *the total number of coaches to be parked within the car park (including both formal and informal car park areas) before 9 am is limited to a maximum of 25 coaches;*
- b) *all coaches arriving and departing the Development before 9 am are restricted to parking in the designated layover areas specified in Drawing No. 18313CAD05-Figure 1 dated 28 June 2022 Revision A, titled 'Sydney Zoo 14.5m Shuttle Bus Layover Area Location' prepared by The Transport Planning Partnership (Appendix E of this consent);*
- c) *the 21 spaces within the coach layover areas in the north western portion of the formal car park, identified on Drawing No. 18313CAD05-Figure 1 dated 28 June 2022 Revision A, titled 'Sydney Zoo 14.5m Shuttle Bus Layover Area Location' prepared by The Transport Planning Partnership, are not used after 9 am.*

Sydney Zoo can confirm that this condition is being met, with coaches arriving before 9am being less than 25, and those arriving are using the designated layover area and are moving from this space before 9am.

3.5.3. C5 Operational Traffic Management Plan

The Applicant shall prepare an Operational Traffic Management Plan for the Development which will form part of the OEMP in Condition D4. The plan shall:

- a) *be prepared by a suitably qualified and experienced person, in consultation with TfNSW, RMS and Council;*
- b) *include detail of specific management measures to be implemented during the initial year of operations to address potentially higher than anticipated visitation;*
- c) *include detail of management measures for parking, traffic and transport during high visitation periods (particularly under any operating times considered under the 'peak' scenario in the EIS) including allocated arrival times, off-peak ticketing and the promotion of public transport);*
- d) *include details and analysis of how the largest vehicle can enter and exit the site access, site carpark and loading areas; and*
- e) *include detail of management measures to be implemented to minimise impacts offsite, including impacts upon the local road network, public transport services and pedestrian access.*

The OTMP has been prepared, approved by DPHI and is in force. The multiple OTMPs are currently in the process of being consolidated based on the iterative updates completed for each modification where required. This condition is considered closed for future Annual Reviews with no further consideration required.

3.5.4. C5A Operational Traffic Management Plan

C5A The Applicant must update the Operational Traffic Management Plan for the Development prior to the commencement of any activities approved under MOD 3 and MOD 9 to the consent. The updated plan must:

- a) *be prepared by suitably qualified and experienced person;*
- b) *be prepared to the satisfaction of the Planning Secretary;*
- c) *include details of specific management measures for parking, traffic and transport to facilitate the private zoo experiences / guided tours that are carried out between 7:30 am and 9 am at the site; and*
- d) *incorporate the restrictions identified in Condition C4A regarding the use of the coach layover areas.*

The OTMP has been prepared, approved by DPHI on 27 March 2023 and is in force. The multiple OTMPs are currently in the process of being consolidated based on the iterative updates completed for each modification where required.

This condition is considered closed for future Annual Reviews with no further consideration required.

3.5.5. C5B Operational Traffic Management Plan

C5B The Applicant must update the Operational Traffic Management Plan for the Development prior to the commencement of any activities approved under MOD 7 to the consent. The updated plan must:

- a) *be prepared by suitably qualified and experienced person;*
- b) *be prepared to the satisfaction of the Planning Secretary; and*

c) *include details of specific management measures for parking, traffic and transport to facilitate the undertaking of temporary and community events and use of the site as a function centre.*

The OTMP has been prepared, approved by DPHI on 26 April 2022 and is in force. The multiple OTMPs are currently in the process of being consolidated based on the iterative updates completed for each modification where required.

This condition is considered closed for future Annual Reviews with no further consideration required.

3.5.6. C5C Traffic Verification Report

Within six months of the commencement of activities approved under MOD 3 and MOD 9, the Applicant must prepare and submit a Traffic Verification Report to the satisfaction of the Planning Secretary. The Report must:

- a) be prepared by a suitably qualified traffic consultant;*
- b) quantify the mode share between coach and private vehicles for the private zoo experiences / small group tours commencing between the hours of 7:30 am and 9 am;*
- c) verify the total traffic impacts of the private zoo experiences / small group tours commencing during the hours of 7:30 am and 9 am on the capacity, efficiency and safety of the road network using SIDRA or similar traffic modelling; and*
- d) provide details of any management of mitigation measures required, including any upgrades or changes in services required for the Development, and a timetable for the implementation of any required actions.*

This condition has been satisfied as confirmed by DPHI on 11 November 2024.

3.5.7. C5D Traffic Verification Report

C5D Within three months of the conclusion of the Sydney Zoo Light Festival 2021 event held at the site in July and August 2021 or an equivalent temporary and community event agreed to by the Planning Secretary, the Applicant must prepare and submit a Traffic Verification Report. The Report must:

- a) be prepared by a suitably qualified traffic consultant to the satisfaction of the Planning Secretary;*
- b) quantify the mode share for any event being held between the hours of 4 pm and 11 pm;*
- c) verify the total traffic impacts of all activities commencing, or being undertaken, during the hours of 4 pm and 11 pm throughout the duration of the Sydney Zoo Light Festival 2021 event (or equivalent approved event) on the capacity, efficiency and safety of the road network using SIDRA or similar traffic modelling; and*
- d) provide details of any management of mitigation measures required, including any upgrades or changes in services required for the Development, and a timetable for the implementation of any required actions.*

This condition has been satisfied as confirmed by DPHI on 16 December 2022.

3.5.8. C6 Work Place Travel Plan

Prior to the commencement of operation of any part of the Development, the Applicant shall prepare and implement a Work Place Travel Plan as part of the Operational Traffic Management Plan detailed in Condition C5, in consultation with TfNSW. The Work Place Travel Plan shall:

- (a) outline facilities and measures to promote public transport usage, such as car share schemes and employee incentives that would achieve a public transport mode share of 25%;*
- (b) describe pedestrian and bicycle linkages and end of trip facilities available on-site; and*
- (c) be implemented for the life of the Development.*

The Work Place Travel Plan has been prepared and implemented. It is currently undergoing review based on a travel survey conducted with Sydney Zoo staff and will be updated in consultation with staff in 2025.

3.5.9. C12 Water Quality Monitoring Program

Prior to the commencement of construction, the Applicant shall prepare, in consultation with EPA, a Water Quality Monitoring Program for the construction and operation of the Development to the satisfaction of the Planning Secretary. The plan shall:

- (a) be generally in accordance with the information provided within the Supplementary Information;*

- (b) detail of additional monitoring information that is to be collected to validate all of the assumptions made within the EIS. Water quality monitoring is to be in accordance with the EPA's guideline 'Approved Methods for the Sampling and Analysis of Water Pollutants in NSW';
- (c) include sampling of analytes presented within the Supplementary Information, in addition to oxides of nitrogen (as nitrogen), filterable reactive phosphorus (as phosphorus) and dissolved oxygen (% saturation);
- (d) include a sampling frequency schedule that is to include sampling at every discharge point at least twice per month until the performance of the system has been validated by the EPA; and
- (e) include a protocol detailing the remedial action/s that will be undertaken in the event that satisfactory treatment performance in accordance with ANZECC (2000) has not been achieved including when each triggered remedial action would be completed.

The Water Quality Monitoring Program has been prepared and agreed with the Planning Secretary. Monitoring has been carried out, and the Program provides that monitoring during operation can cease when validated by the EPA. The EPA have previously, in 2020, confirmed no regulatory role and therefore it is considered suitable for monitoring to be reported to the EPA – notwithstanding, a subsequent clarification has been issued to the EPA to confirm this remains the position. The independent Auditor who completed the 2024 IEA indicated that this advice should be submitted to DPHI for clarification – this will be completed shortly.

3.5.10. C15 Biodiversity Management Plan

The Applicant shall prepare and implement a Biodiversity Management Plan for the Development to the satisfaction of the Planning Secretary. The plan shall:

- (a) be prepared by a qualified ecologist in consultation with the OEH, RFS, Council and Western Sydney Parklands Trust;
- (b) be approved by the Planning Secretary prior to the commencement of any works on the site;
- (c) include measures to be taken to minimise impacts upon flora and fauna; and
- (d) include a Cumberland Plain Woodland Plan of Management (see Condition C16).

This Plan has been prepared and the condition satisfied.

It is intended to be updated in 2025 based on proposed modifications to the development.

3.5.11. C16 Cumberland Plain Woodland Plan of Management

The Applicant shall prepare and implement a Cumberland Plain Woodland Plan of Management for the Development to protect, manage and enhance the Cumberland Plain Woodland on the site and in the immediate surrounds. This plan will form part of the Biodiversity Management Plan in Condition C15 and shall:

- (a) be prepared by a qualified ecologist in consultation with the OEH, RFS, RMS, TfNSW and Western Sydney Parklands Trust;
- (b) include detail of the plant species, management zones, vegetation monitoring, weed control measures, planting methodology and regeneration monitoring;
- (c) include detail of all Cumberland Plain Woodland areas on the site of the Development and detail how these areas shall be suitably fenced and environmental qualities recognised (e.g. signage); and
- (d) shall be implemented as part of the landscaping works and shall be maintained by or on behalf of the Applicant in perpetuity of the Development.

This Plan has been prepared and the condition satisfied.

It is intended to be updated in 2025 based on proposed modifications to the development.

3.5.12. C17 Fencing

All areas of Cumberland Plain Woodland identified for retention in the EIS shall be protected by suitable, fencing and signage during construction and operation. The fencing is to be constructed prior to the commencement of works.

Sydney Zoo can confirm fencing remains in place.

3.5.13. C21 Aboriginal Cultural Experience

The Applicant is to collaborate with Muru Mittigar and Registered Aboriginal Parties consulted within the EIS to the satisfaction of the Planning Secretary to establish a detailed Aboriginal Heritage Experience Strategy in conjunction with the display of Australian native animals, to the satisfaction of the Planning Secretary. This strategy will form part of the OEMP in Condition D4 and shall:

- (a) be prepared by a suitably qualified and experienced heritage consultant;*
- (b) include detail of infrastructure, signage and various other materials to ensure the Australian native animal exhibits of the Development are fully integrated with the presentation of Aboriginal heritage;*
- (c) outline how the experience will increase awareness and education in relation to Aboriginal heritage;*
- (d) demonstrate how direct contact with Australian native animals will enhance the education of Aboriginal culture; and*
- (e) demonstrate how Aboriginal people will have an ongoing participatory role in the experience.*

The Cultural Strategy has been prepared and implemented. A draft update has been prepared based on Muru Mittigar no longer being involved this will be submitted to the DPHI at the appropriate time in 2025 through a modification process.

3.5.14. C24 Heritage Interpretation Plan

The Applicant shall prepare a Heritage Interpretation Plan to acknowledge the non-indigenous heritage of the site. The plan will form part of the OEMP in Condition D4 and shall:

- (a) be prepared by a suitably qualified and experienced expert in consultation with the OEH NSW Heritage Division and Council;*
- (b) include provision for naming elements within the Development that acknowledges the site's heritage, such as the name of the roadways within the estate; and*
- (c) incorporate interpretive information on any identified sites.*

This condition has been satisfied.

3.5.15. C32B Noise Verification Report

Within six months of the commencement of operation of the Development the Applicant must prepare a Noise Verification Report for the Development to the satisfaction of the Planning Secretary. The report must:

- a) be prepared by a suitably qualified acoustic consultant, with qualifications and experience consistent with the technical eligibility criteria for membership to the Association of Australian Acoustical Consultants or the Australia Acoustical Society;*
- b) be prepared in consultation with Council;*
- c) include an analysis of compliance with the noise limits specified in Condition C32 for all activities specified in Condition B10;*
- d) include an outline of management actions to be taken to address any exceedances of the limits specified in Condition C32; and*
- e) describe contingency measures in the event management actions are not effective in reducing noise levels to an acceptable level.*

This condition has been satisfied and confirmed by DPHI on 12 August 2022. Consultation timeframes with Council has been noted by DPHI. This condition is considered closed with no further action or requirements to form part of future Annual Reviews.

3.5.16. C32C Noise Verification Report

C32C A Noise Verification Report must be submitted to the satisfaction of the Planning Secretary at the following stages of the Development:

- a) within three months of the conclusion of the Sydney Zoo Light Festival 2021 event held at the site in July and August 2021 or an equivalent temporary and community event agreed to by the Planning Secretary; and*
- b) within three months of the conclusion of the first twilight concert event held at the site.*

Part a) of this condition has been satisfied and confirmed by DPHI on 1 August 2022.

Part b) of this condition is the subject of a current submission to DPHI from December 2024, pending a response.

3.5.17. D4 Operational Environmental Management Plan

The Applicant shall prepare and implement an Operational Environmental Management Plan (OEMP) to the satisfaction of the Planning Secretary. The OEMP shall:

- (a) be prepared by a suitably qualified and experienced person in consultation with Council;*
- (b) be approved by the Planning Secretary prior to the commencement of the operation;*
- (c) describe all activities to be undertaken as part of the operation of the Development;*
- (d) list statutory and other obligations that the Applicant is required to fulfil during the operation of the Development;*
- (e) present overall environmental policies, guidelines and principles to be applied to the operation of the Development;*
- (f) provide details of how environmental performance would be managed and monitored to meet acceptable outcomes, including what actions will be undertaken to address identified potential adverse environmental impacts;*
- (g) include all sub-management plans required under Condition D5 of this consent.*

The OEMP has been endorsed by DPHI and is currently in force. It is undergoing a review and will be updated through 2025 for re-submission to DPHI as operational procedures have been further refined.

3.5.18. D5 Operational Environmental Management Plan

D5 As part of the OEMP required under Condition D4 of this consent, the Applicant shall include the following:

- (a) Operational Traffic Management Plan (see Condition C5);*
- (b) Community Engagement Plan (see Condition C8);*
- (c) Aboriginal Cultural Experience (see Condition C21);*
- (d) Heritage Interpretation Plan (see Condition C24); and*
- (e) Operational Air Quality Management Plan.*

Sydney Zoo confirms the OEMP contains these plans. They are currently being reviewed and will be updated as required based on the current OEMP review underway.

3.5.19. D6 Operational Environmental Management Plan

D6 The approved Operational Environmental Management Plan (as revised and approved by the Planning Secretary) shall be implemented by the Applicant for duration of operation of the Development.

Sydney Zoo confirms the OEMP is implemented on-site.

3.5.20. Condition D7(f)

D7. Each year, unless otherwise agreed by the Planning Secretary, the Applicant shall review the environmental performance of the Development to the satisfaction of the Planning Secretary. This review shall:

- (f) verify the total daily visitor numbers for private zoo experiences / small group tours commencing between the hours of 7:30 am and 9 am has not exceeded the limit of 1,500 persons and include an outline of management actions to be taken to address any exceedance of the limit on visitor numbers and ensure ongoing compliance with the requirements of this consent.*

During the course of 2024 visitor numbers between the hours of 7:30am and 9am have been limited. The numbers therefore remain well below the maximum of 1,500 per day. Management will continue to monitor this.

3.5.21. Condition D11 – Auditing

In summary, from the IEA completed in 2024, there were 175 items assessed as part of the SSD Consent Conditions, with the audit finding:

- Number of compliances: 96 items
- Number of non-compliances: 3 items
- Number of non-triggered: 76 items

In terms of the Operational Environmental Management Plan, the following was found:

- Number of compliances: 40 items
- Number of non-compliances: 6 items
- Number of non-triggered: 9 items

The next IEA, per Condition D11, is planned for 2027.

The test results are submitted to Sydney Water quarterly and no adverse results have been received and the results are within the expected parameters. Copies of reports are contained in **Appendix F**.

4. Incidents

No environmental incidents have been recorded at the development over the past 12 months.

5. Complaints

No complaints have been received during the period of this Annual Review.

6. Activities to be completed in the next reporting period

The activities proposed to be undertaken during the AR 2025 reporting period are presented below.

Table 7 Proposed Activities in AR 2025 Reporting Period

Proposed Activities in 2025	Objective
Complete modification to consent conditions	Modify current consent conditions to remove irrelevant or out of date conditions.
Update OEMP	Finalise current update to OEMP to accommodate changes made to operational activities and submit to DPHI for approval including updates to applicable sub-plans.
Update Aboriginal Cultural Experience Strategy	Update the current Aboriginal Cultural Experience Strategy to remove reference to Muru Mittigar and to reflect current practices.
Update Work Place Travel Plan	Update Work Place Travel Plan based on survey results of staff as completed in September 2024, in consultation with staff.
Update and consolidate OTMPs	Update and consolidate existing multiple OTMPs as required by consent conditions into one, simple OTMP to cover all operational traffic matters.
Biodiversity Management Plan and Cumberland Plain Management Plan (BMP and CPWMP) Monitoring	Updates to Biodiversity Management Plan and Cumberland Plain Management Plan to be completed in 2025, as pending lodgement of a Modification Application to DPHI that will impact the proposed update.
Bushfire Risk Management Plan Update	The BRMP is to be updated in 2025 to include evacuation routes, firefighting protocols and hydrant locations as a standalone document.
Community Consultation and Engagement Plan Update	The Engagement Plan will be reviewed and updated to reflect operation only noting construction has been completed.
OEMP – Vegetation and Landscape Manager	Obtain progress and finalisation report for required monitoring of established areas of vegetation.

7. Conclusion

This Annual Review for 2023 has been prepared in satisfaction of Condition D7 of the SSD 7228 consent for the Sydney Zoo.

Appendix A - Compliance Table

Modification 11 (5 December 2023)

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
SCHEDULE B – ADMINISTRATIVE CONDITIONS				
OBLIGATION TO MINIMISE HARM TO THE ENVIRONMENT				
B1	In addition to meeting the specific performance criteria established under this consent, the Applicant shall implement all reasonable and feasible measures to prevent and/or minimise any harm to the environment that may result from the Development.	Operation	Ongoing during operation as required.	
TERMS OF CONSENT				
B2	The Applicant shall carry out the Development in accordance with the: (a) EIS, RTS and Supplementary Information and Additional Information; (b) development layout plans and drawings in the EIS, RTS and Supplementary Information; (c) the Management and Mitigation Measures (see Appendix B); (d) the modification application SSD 7228 MOD 1 and supporting documentation; (e) the modification application SSD 7228 MOD 2 and supporting documentation; (f) the modification application SSD 7228 MOD 3 and supporting documentation; (g) the modification application SSD 7228 MOD 4 and supporting documentation; (h) the modification application SSD 7228 MOD 6 and supporting documentation; (i) the modification application SSD 7228 MOD 7 and supporting documentation; (j) the modification application SSD 7228 MOD 8 and supporting documentation; (k) the modification application SSD 7228 MOD 9 and supporting documentation; (l) the modification application SSD 7228 MOD 10 and supporting documentation; and (m) the modification application SSD 7228 MOD 11 and supporting documentation.	Operation	Ongoing during operation as required.	
B3	If there is any inconsistency between the above documents, the most recent document shall prevail to the extent of the inconsistency. However, the conditions of this consent shall prevail to the extent of any inconsistency.	Note	No action	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status						
B4	The Applicant shall comply with any reasonable requirement(s) of the Planning Secretary arising from the Department's assessment of: (a) any reports, plans or correspondence that are submitted in accordance with this consent; and (b) the implementation of any actions or measures contained within these reports, plans or correspondence.	Note	No action							
LIMITS OF CONSENT										
B5	B5. This consent lapses five years after the date from which it operates, unless the Development has physically commenced on the land to which the consent applies before the date on which the consent would otherwise lapse under section 95 of the EP&A Act.	Note	The consent has been activated.							
B6	The display of Australian native animals shall comprise less than 1.6 hectares of the overall exhibited animal collection and shall be displayed as part of an Aboriginal Cultural Experience (See Condition C21). This area is to be in accordance with the area designated for Australian animals presented within the Site Plan (see APPENDIX A) and must include from the commencement of opening to the public an Aquarium, Reptile House and Insectarium and Nocturnal House. Any additional Australian native animals can be displayed as part of educational sessions or 'micro displays' within the commercial facilities across the site (i.e. restaurants, cafes and shops).	Operation	The Australian existing covers an area less than 1.6ha and has been such since commencement of operation.							
B7	For the commencement of opening to the public the Development must have for display to the public at least two-thirds of the exotic species nominated in the Additional Information.	Operation	This was satisfied at opening of the Zoo,							
B8	For the first three years after opening to the public, the Applicant is prohibited from having Interactive Programs that involve touching a koala except as part of demonstrations in the educational amphitheatre or provided in the context of education of school groups.	Operation	Compliant. The three year period has now passed.							
B9	Deleted	-	-	-						
B10	The hours of operation for the Development are restricted, on any day, to the hours specified in Table 1 below: Table 1: Hours of Operation <table><tr><th>Activity Description</th><th>Hours of Operation</th></tr><tr><td>Public opening hours</td><td>9am – 11pm</td></tr><tr><td>Maintenance activities conducted by staff of the Development including cleaning, animal curation, feeding and general maintenance activities</td><td>5:30am – 11pm</td></tr></table>	Activity Description	Hours of Operation	Public opening hours	9am – 11pm	Maintenance activities conducted by staff of the Development including cleaning, animal curation, feeding and general maintenance activities	5:30am – 11pm	Operation	The Zoo operates within these hours.	
Activity Description	Hours of Operation									
Public opening hours	9am – 11pm									
Maintenance activities conducted by staff of the Development including cleaning, animal curation, feeding and general maintenance activities	5:30am – 11pm									

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
	<p>Emergency activities (including animal medical events) 24 hours, 7 days a week</p> <p>Use of the site as a function centre 7am – 11pm</p> <p>Temporary and community events 7am – 11pm</p> <p>Delivery of goods, waste collection and specimen related services including animal and food delivery 7am – 11pm</p> <p>Private zoo experiences / small group tours 7:30am – 11pm</p> <p>Use of the permanent ferris wheel 9am – 11pm</p> <p>Note: The operational noise limits specified in Condition C32 apply to all activities</p>			
B10A	Temporary and community events are limited to a maximum of eight events per calendar year, until such time the Planning Secretary is satisfied that the requirements of Condition C5D and C32C have been met.	Operation	The Zoo has not exceeded more than eight events in 2024. This condition will be satisfied pending C32C.	
B10B	Private zoo experiences / guided tours that take place outside of general public opening hours are limited to a maximum patronage of 60 persons per tour.	Operation	Private zoo experiences do not exceed more than 60 persons.	
B10C	The maximum number of visitors permitted on site for private zoo experiences / small group tours commencing between the hours of 7:30 am and 9 am is limited to a maximum total of 1,500 visitors.	Operation	Visitors before 9am have not exceeded 1,500.	
B10D	The use of the site as a function centre for the holding of corporate events and function style events between the hours of 6pm and 11pm is limited to a maximum total patronage of 350 persons.	Operation	Complies. No function centre use has exceeded these numbers.	
B10E	The maximum number of visitors permitted on site between the hours of 6pm and 11pm is limited to a maximum total of 3,850 visitors, unless otherwise agreed by the Planning Secretary.	Operation	Complies. No exceedance of total number of visitors.	
B10F	<p>Events that are not permitted to occur on site include:</p> <p>(a) Fireworks;</p> <p>(b) Loud concerts (that is, not a 'low impact' concert);</p> <p>(c) Events past 11pm on any given day (including the use of amplified loudspeakers);</p> <p>and</p> <p>(d) Events that will exceed the noise limits specified in Conditions C32 and C32A.</p>	Operation	Complies. No events hosted have used included these matters.	
B10G	This consent does not approve the erection of temporary structures and signages associated with the carrying out of any activities on the site.	Operation	No temporary structures or signage erected under this consent.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
B10H	Notwithstanding the hours of operation for the permanent ferris wheel specified in Condition B10: (a) use of the ferris wheel is restricted to zoo patrons only at all times; and (b) use of the ferris wheel during temporary and community events may only occur if the zoo is open to the general public during the event.	Operation	The Ferris Wheel can only be used by zoo patrons given the ticketing required to enter the zoo.	
STAGED SUBMISSION OF PLANS OR PROGRAMS				
B110	With the approval of the Planning Secretary, the Applicant may: (a) submit any strategy, plan or program required by this consent on a progressive basis; and/or (b) combine any strategy, plan or program required by this consent.	Note	Not triggered. No staging of the project has occurred.	
B12	If the submission of any strategy, plan or program is to be staged, then the relevant strategy, plan or program shall clearly describe the specific stage to which the strategy, plan or program applies, the relationship of the stage to any future stages and the trigger for updating the strategy, plan or program. A clear relationship between the strategy, plan or program that is to be combined shall be demonstrated.	Note	Not triggered. No staging of the project has occurred.	
EVIDENCE OF CONSULTATION				
B13	Where consultation with any public authority is required by the conditions of this consent, the Applicant shall: (a) consult with the relevant public authority prior to submitting the required documentation to the Planning Secretary or the PCA for approval, where required; (b) submit evidence of this consultation as part of the relevant documentation required by the conditions of this consent; and (c) include the details of any outstanding issues raised by the relevant public authority and an explanation of the disagreement between any public authority and the Applicant or any person acting on this consent.	Construction/Operation	Consultation has occurred where required and submitted to DPHI as part of conditions satisfaction.	
DISPUTE RESOLUTION				
B14	In the event that a dispute arises between the Applicant and either Council or a public authority, in relation to an applicable requirement in this consent or relevant matter relating to the Development, either party may refer the matter to the Planning Secretary for resolution. The Planning Secretary's determination of any such dispute shall be final and binding on the parties.	Construction/Operation	Not triggered.	
STATUTORY REQUIREMENTS				

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
B15	<p>The Applicant shall ensure that all licences, permits and approval/consents are obtained as required by law and maintained as required throughout the life of the Development. No condition of this consent removes the obligation for the Applicant to obtain, renew or comply with such licences, permits or approval/consents.</p> <p>Note – This is to include relevant license/approval from Council under section 68 of the Local Government Act 1993 for all domestic effluent disposal and management systems on-site.</p>	Operation	The relevant licences/permits/approvals have been obtained and are maintained as required.	
B15A	The Applicant must ensure that all licences, permits and approval/consents are obtained for the carrying out of temporary and community events on the site as required by law and maintained as required throughout the life of the Development.	Operation	No licences/permits/approvals have been required for temporary/community events.	
STRUCTURAL ADEQUACY AND CERTIFICATION				
B16	<p>The Applicant shall ensure all new buildings and structures are constructed in accordance with the relevant requirements of the BCA.</p> <p>Note – Under Part 4A of the EP&A Act, the Applicant is required to obtain construction and occupation certificates for the proposed building works. Part 8 of the EP&A Regulation sets out the requirements for the certification of the Development.</p>	Construction	Not triggered in this AR period.	
UTILITIES AND SERVICES				
B17	Prior to the construction of any utility works associated with the Development, the Applicant shall obtain relevant approvals from service providers.	Construction	Not triggered in this AR period.	
B18	Prior to operation of the Development, the Applicant shall obtain a Compliance Certificate for water and sewerage infrastructure servicing of the site from Sydney Water Corporation under Section 73 of the Sydney Water Act 1994.	Construction	This has been satisfied previously.	
PROTECTION OF PUBLIC INFRASTRUCTURE				
B19	<p>Prior to the commencement of earthworks, the Applicant shall:</p> <p>(a) prepare a dilapidation report identifying the condition of all public infrastructure in the vicinity of the site (including roads, gutters and footpaths); and</p> <p>(b) submit a copy of this report to the Planning Secretary and Council.</p>	Construction	Not triggered in this AR period.	
B20	<p>The Applicant shall:</p> <p>(a) repair, or pay the full costs associated with repairing any public infrastructure that is damaged by the Development; and</p> <p>(b) relocate, or pay the full costs associated with relocating any infrastructure that needs to be relocated as a result of the Development.</p>	Construction	Not triggered in this AR period.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
COMPLIANCE				
B21	The Applicant shall ensure that employees, contractors and sub-contractors are aware of, and comply with, the conditions of this consent relevant to their respective activities.	Operation	Employees and contractors go through an onboarding process. This is being refined as part of an annual update at present.	
B22	The Applicant shall be responsible for environmental impacts resulting from the actions of all persons that it invites onto the site, including contractors, sub-contractors and visitors.	Operation	Noted.	
OPERATION OF PLANT AND EQUIPMENT				
B23	The Applicant shall ensure that all plant and equipment used for the Development is: (a) maintained in a proper and efficient condition; and (b) operated in a proper and efficient manner.	Operation	Plant and equipment is maintained effectively and operated according to manufacturers instructions	
SCHEDULE C – ENVIRONMENTAL PERFORMANCE AND MANAGEMENT				
TRAFFIC AND ACCESS				
C1	No work associated with the Development shall be carried out on land owned by RMS without consent of RMS.	Construction/Operation	No work has occurred outside the zoo boundaries	
C2	Parking The Applicant shall provide sufficient parking facilities on the site during both construction and operation, including for heavy vehicles and for site personnel, to ensure that traffic associated with the Development does not utilise public and residential streets or public parking facilities. Where there is an overflow, the Applicant must implement reasonable and feasible measures to minimise queuing on the surrounding road network. Detail of these measures shall be presented within the Operational Traffic Management Plan (see Condition C5).	Construction/Operation	OTMP is implemented and sufficient parking is provided on-site.	
C3	Construction Traffic Management Plan The Applicant shall prepare a Construction Traffic Management Plan for the Development which will form part of the CEMP in Condition D1 of this consent. The plan shall: (a) be prepared by a suitably qualified and experienced person, in consultation with TfNSW, RMS and Council; (b) detail the measures that would be implemented to ensure road safety and network efficiency during earthworks and construction; (c) detail heavy vehicle routes, access and parking arrangements; (d) include a Driver Code of Conduct to: • minimise the impacts of construction on the local and regional road network; • minimise conflicts with other road users;	Construction	Not triggered in the AR period.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
	<ul style="list-style-type: none"> ensure truck drivers use specified routes; (e) include a program to monitor the effectiveness of these measures; and (f) if necessary, detail procedures for notifying residents and the community (including local schools), of any potential disruptions to routes. 			
C4	<p>Operating Conditions</p> <p>The Applicant shall ensure:</p> <ul style="list-style-type: none"> (a) internal roads, driveways and parking (including grades, turn paths, sight distance requirements, aisle widths, aisle lengths and parking bay dimensions) associated with the Development are constructed and maintained in accordance with the latest version of AS 2890.1 and AS 2890.2; (b) the swept path of the longest vehicle entering and exiting the site, as well as manoeuvrability through the site, is in accordance with the relevant AUSTROADS guidelines; (c) heavy vehicles and bins associated with the Development are not parked on local roads or footpaths in the vicinity of the site; (d) all loading and unloading of materials is carried out on-site; (e) all trucks entering or leaving the site with loads have their loads covered and do not track dirt onto the public road network; and (f) the proposed turning areas in the car park are kept clear of any obstacles, including parked cars, at all times. 	Operation	OTMP is implemented, and the relevant matters of this condition are continually monitored and satisfied.	
C4A	<p>Coach Layover Areas</p> <p>The Applicant must ensure:</p> <ul style="list-style-type: none"> a) the total number of coaches to be parked within the car park (including both formal and informal car park areas) before 9 am is limited to a maximum of 25 coaches; b) all coaches arriving and departing the Development before 9 am are restricted to parking in the designated layover areas specified in Drawing No. 18313CAD05-Figure 1 dated 28 June 2022 Revision A, titled 'Sydney Zoo 14.5m Shuttle Bus Layover Area Location' prepared by The Transport Planning Partnership (Appendix E of this consent); c) the 21 spaces within the coach layover areas in the north western portion of the formal car park, identified on Drawing No. 18313CAD05-Figure 1 dated 28 June 2022 Revision A, titled 'Sydney Zoo 14.5m Shuttle Bus Layover Area Location' prepared by The Transport Planning Partnership, are not used after 9 am. 	Operation	<p>OTMP is implemented.</p> <p>No exceedances of limits on coaches have occurred, and coaches park in the designated area when present.</p>	
C5	<p>Operational Traffic Management Plan</p> <p>The Applicant shall prepare an Operational Traffic Management Plan for the Development which will form part of the OEMP in Condition D4. The plan shall:</p> <ul style="list-style-type: none"> (a) be prepared by a suitably qualified and experienced person, in consultation with TfNSW, RMS and Council; 	Operation	OTMP has been prepared and forms part of the OEMP.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
	<p>(b) include detail of specific management measures to be implemented during the initial year of operations to address potentially higher than anticipated visitation;</p> <p>(c) include detail of management measures for parking, traffic and transport during high visitation periods (particularly under any operating times considered under the 'peak' scenario in the EIS) including allocated arrival times, off-peak ticketing and the promotion of public transport);</p> <p>(d) include details and analysis of how the largest vehicle can enter and exit the site access, site carpark and loading areas; and</p> <p>(e) include detail of management measures to be implemented to minimise impacts offsite, including impacts upon the local road network, public transport services and pedestrian access.</p>			
C5A	<p>The Applicant must update the Operational Traffic Management Plan for the Development prior to the commencement of any activities approved under MOD 3 and MOD 9 to the consent. The updated plan must:</p> <p>a) be prepared by suitably qualified and experienced person;</p> <p>b) be prepared to the satisfaction of the Planning Secretary;</p> <p>c) include details of specific management measures for parking, traffic and transport to facilitate the private zoo experiences / guided tours that are carried out between 7:30 am and 9 am at the site; and</p> <p>d) incorporate the restrictions identified in Condition C4A regarding the use of the coach layover areas.</p>	Operation	<p>OTMP prepared by TTPP dated 21 March 2023, as approved by DPE on 27 March 2023 as satisfying this condition of consent.</p> <p>Not relevant to this AR2024 due to occurring within the previous AR2023 reporting period.</p>	
C5B	<p>The Applicant must update the Operational Traffic Management Plan for the Development prior to the commencement of any activities approved under MOD 7 to the consent. The updated plan must:</p> <p>a) be prepared by suitably qualified and experienced person;</p> <p>b) be prepared to the satisfaction of the Planning Secretary; and</p> <p>c) include details of specific management measures for parking, traffic and transport to facilitate the undertaking of temporary and community events and use of the site as a function centre.</p>	Operation	<p>OTMP prepared by TTPP dated March 2022, as approved by DPE on 26/4/2022 as satisfying this condition of consent.</p> <p>Not relevant to this AR2024 due to occurring within the AR2020-2022 reporting period.</p>	
C5C	<p>Traffic Verification Report</p> <p>Within six months of the commencement of activities approved under MOD 3 and MOD 9, the Applicant must prepare and submit a Traffic Verification Report to the satisfaction of the Planning Secretary. The Report must:</p> <p>a) be prepared by a suitably qualified traffic consultant;</p> <p>b) quantify the mode share between coach and private vehicles for the private zoo experiences / small group tours commencing between the hours of 7:30 am and 9 am;</p>	Operation	<p>Traffic Verification Report submitted to DPHI (dated 24 October 2024) and approved on 11 November 2024.</p> <p>Refer Appendix H.</p>	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
	<p>c) verify the total traffic impacts of the private zoo experiences / small group tours commencing during the hours of 7:30 am and 9 am on the capacity, efficiency and safety of the road network using SIDRA or similar traffic modelling; and</p> <p>d) provide details of any management of mitigation measures required, including any upgrades or changes in services required for the Development, and a timetable for the implementation of any required actions.</p>			
C5D	<p>Within three months of the conclusion of the Sydney Zoo Light Festival 2021 event held at the site in July and August 2021 or an equivalent temporary and community event agreed to by the Planning Secretary, the Applicant must prepare and submit a Traffic Verification Report. The Report must:</p> <p>a) be prepared by a suitably qualified traffic consultant to the satisfaction of the Planning Secretary;</p> <p>b) quantify the mode share for any event being held between the hours of 4 pm and 11 pm;</p> <p>c) verify the total traffic impacts of all activities commencing, or being undertaken, during the hours of 4 pm and 11 pm throughout the duration of the Sydney Zoo Light Festival 2021 event (or equivalent approved event) on the capacity, efficiency and safety of the road network using SIDRA or similar traffic modelling; and</p> <p>d) provide details of any management of mitigation measures required, including any upgrades or changes in services required for the Development, and a timetable for the implementation of any required actions.</p>	Operation	<p>Mod 7 – Extension of Night Time Events Traffic Verification Report prepared by TTPP dated 10 June 2022, as approved by DPE on 16/12/2022 as satisfying this condition of consent.</p> <p>Not relevant to this AR2024 due to occurring within the AR2020-2022 reporting period.</p>	
C6	<p>Work Place Travel Plan</p> <p>Prior to the commencement of operation of any part of the Development, the Applicant shall prepare and implement a Work Place Travel Plan as part of the Operational Traffic Management Plan detailed in Condition C5, in consultation with TfNSW. The Work Place Travel Plan shall:</p> <p>(a) outline facilities and measures to promote public transport usage, such as car share schemes and employee incentives that would achieve a public transport mode share of 25%;</p> <p>(b) describe pedestrian and bicycle linkages and end of trip facilities available on-site; and</p> <p>(c) be implemented for the life of the Development.</p>	Pre-Operation Operation	<p>Work Place Travel Plan (WTPP) prepared by Ethos Urban dated 8/3/2021 as part of the Mod 7 application.</p> <p>This document continues to be enforced and the proposed OEMP 2025 Update will consolidate the relevant documents, with updates to the WTPP as needed.</p>	
SOCIO-ECONOMIC				
C7	<p>Prior to the commencement of construction, the Applicant shall provide a dedicated Community Hotline phone number and email address for the provision of information relating to the Development and to make any complaints. This Community Hotline is to be monitored during construction and operation of the Development.</p>	Pre-Construction Construction Operation	<p>Sydney Zoo contact number is available for information and complaints, available on: https://sydneyzoo.com/about/contact-us/</p>	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
	The details of these services are to be provided to the residents of Bungarribee, made available on the main website of the Development and placed on any public communications commissioned by the Applicant in relation to the Development.			
C8	<p>Prior to the commencement of construction the Applicant shall prepare, in consultation with the Planning Secretary, a Community Engagement Plan for the construction and operation of the Development to the satisfaction of the Planning Secretary. The plan shall:</p> <ul style="list-style-type: none"> (a) include a profile of the surrounding community and identify key stakeholders and community members and groups; (b) include detail of procedures and mechanisms used to consult the community and stakeholders on the Development's progress and other issues; (c) include detail of the opportunities for the community of Bungarribee to be involved with the Development during construction and operation (i.e. as part of decision-making, employment or as visitors through an alternate pricing structure); (d) include detail of how the Community Hotline and email address (as required by Condition C7) will be managed and monitored; (e) detail the methods for ongoing engagement with identified key stakeholders and community members and groups (including a commitment to face-to-face meetings at least four times per year); and (f) include adaptive management strategies that may be implemented to address any anticipated or unanticipated social issues that may arise. 	Pre-Construction Construction Operation	<p>Community Consultation and Engagement Plan prepared by Ethos Urban dated 24/11/2017, forming Appendix 1 of the OEMP, as approved by the DPIE on 18/10/2019 as satisfying this condition of consent.</p> <p>This document continues to be enforced and the proposed OEMP 2024 Update will consolidate the relevant documents, with updates to the Plan as needed.</p>	
C9	<p>Development of Regional Tourism</p> <p>Prior to the commencement of operations, the Applicant shall submit a report to the satisfaction of the Planning Secretary demonstrating it has made genuine and reasonable attempts to consult with local recreational facilities and businesses (including Featherdale Wildlife Park) to enhance regional tourism in conjunction with the Development. The report shall include:</p> <ul style="list-style-type: none"> (a) details of how the operation of the Development will differ from the existing recreational facilities and businesses; (b) detail consultation undertaken with local recreational facilities and businesses; (c) outline initiatives implemented to encourage and enhance continued operation in conjunction with local recreational facilities and businesses; (d) detail the success or otherwise of these initiatives using recognised social indicators; and (e) include detail of the additional activities that will be undertaken for the duration of the Development. <p>The Planning Secretary may request updates on these initiatives at any time.</p>	Pre-Operation	<p>Report on Initiatives to Enhance Regional Tourism, prepared by Sydney Zoo dated 31 May 2019, as approved by the DPIE on 18 October 2019 as satisfying this condition of consent.</p> <p>Not relevant to this AR2024 due to occurring within the AR2020-2022 reporting period.</p>	
STORMWATER AND DRAINAGE				

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
C10	Discharge Limits The Development shall comply with section 120 of the POEO Act, which prohibits the pollution of waters.	Operation	No pollution of waters has occurred in this reporting period.	
C11	Stormwater Drainage The Applicant shall prepare a final Stormwater Drainage Plan for the Development in consultation with Council and in accordance with the Blacktown Development Control Plan 2015. The final Stormwater Drainage Plan shall form part of the application for a construction certificate.	Construction	Not triggered.	
C12	Water Quality Monitoring Program Prior to the commencement of construction, the Applicant shall prepare, in consultation with EPA, a Water Quality Monitoring Program for the construction and operation of the Development to the satisfaction of the Planning Secretary. The plan shall: (a) be generally in accordance with the information provided within the Supplementary Information; (b) detail of additional monitoring information that is to be collected to validate all of the assumptions made within the EIS. Water quality monitoring is to be in accordance with the EPA's guideline 'Approved Methods for the Sampling and Analysis of Water Pollutants in NSW'; (c) include sampling of analytes presented within the Supplementary Information, in addition to oxides of nitrogen (as nitrogen), filterable reactive phosphorus (as phosphorus) and dissolved oxygen (% saturation); (d) include a sampling frequency schedule that is to include sampling at every discharge point at least twice per month until the performance of the system has been validated by the EPA; and (e) include a protocol detailing the remedial action/s that will be undertaken in the event that satisfactory treatment performance in accordance with ANZECC (2000) has not been achieved including when each triggered remedial action would be completed.	Operation	Monitoring ongoing. Refer to Appendix E for results. EPA have previously advised no regulatory tole – this is currently being re-clarified to inform DPHI.	
BIODIVERSITY				
C13	Prior to undertaking any clearing of 'Grey Box – Forest Red Gum grassy woodland on flats of the Cumberland Plain, Sydney Basin Bioregion (HN 528)', or activities that have the potential to impact upon the endangered ecological community 'Grey Box – Forest Red Gum grassy woodland on flats of the Cumberland Plain, Sydney Basin Bioregion (HN 528)' the Applicant shall purchase and retire FIVE ecosystem credits to offset the impacts of the Development upon this endangered ecological community. The ecosystem credits shall be determined in consultation with OEH and in accordance with the assessment presented within the EIS and RTS.	Construction	Not triggered.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
C14	No development is to occur in areas indicated as 'Existing Vegetation to retain' within Appendix D.	Operation	No development has occurred in these areas.	
C15	<p>Biodiversity Management Plan</p> <p>The Applicant shall prepare and implement a Biodiversity Management Plan for the Development to the satisfaction of the Planning Secretary. The plan shall:</p> <p>(a) be prepared by a qualified ecologist in consultation with the OEH, RFS, Council and Western Sydney Parklands Trust;</p> <p>(b) be approved by the Planning Secretary prior to the commencement of any works on the site;</p> <p>(c) include measures to be taken to minimise impacts upon flora and fauna; and</p> <p>(d) include a Cumberland Plain Woodland Plan of Management (see Condition C16).</p>	Operation	The BMP has been prepared and forms part of the OEMP	
C16	<p>Cumberland Plain Woodland Plan of Management</p> <p>The Applicant shall prepare and implement a Cumberland Plain Woodland Plan of Management for the Development to protect, manage and enhance the Cumberland Plain Woodland on the site and in the immediate surrounds. This plan will form part of the Biodiversity Management Plan in Condition C15 and shall:</p> <p>(a) be prepared by a qualified ecologist in consultation with the OEH, RFS, RMS, TfNSW and Western Sydney Parklands Trust;</p> <p>(b) include detail of the plant species, management zones, vegetation monitoring, weed control measures, planting methodology and regeneration monitoring;</p> <p>(c) include detail of all Cumberland Plain Woodland areas on the site of the Development and detail how these areas shall be suitably fenced and environmental qualities recognised (e.g. signage); and</p> <p>(d) shall be implemented as part of the landscaping works and shall be maintained by or on behalf of the Applicant in perpetuity of the Development.</p>	Operation	The CPWPM has been prepared and forms part of the BMP within the OEMP.	
C17	<p>Fencing</p> <p>All areas of Cumberland Plain Woodland identified for retention in the EIS shall be protected by suitable, fencing and signage during construction and operation. The fencing is to be constructed prior to the commencement of works.</p>	Construction/Operation	Fencing is in place.	
ANIMAL WELFARE AND BEST PRACTICE				
C18	The Applicant shall implement best practices and comply with all relevant guidelines, including but not limited to the National Zoo Biosecurity Manual, 2011, to ensure exceptional standards for animal welfare are met and maintained throughout the life of the Development.	Operation	Complies.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
C19	The Development shall comply with the NSW Exhibited Animals Protection Act 1986, the NSW Exhibited Animals Protection Regulation 2010 and the NSW Biosecurity Act 2015.	Operation	Complies.	
C20	The Applicant shall obtain all relevant approvals and design all exhibits in consultation with the Department of Primary Industries.	Operation	All approvals obtained.	
ABORIGINAL HERITAGE				
C21	<p>Aboriginal Cultural Experience</p> <p>The Applicant is to collaborate with Muru Mittigar and Registered Aboriginal Parties consulted within the EIS to the satisfaction of the Planning Secretary to establish a detailed Aboriginal Heritage Experience Strategy in conjunction with the display of Australian native animals, to the satisfaction of the Planning Secretary. This strategy will form part of the OEMP in Condition D4 and shall:</p> <ul style="list-style-type: none"> (a) be prepared by a suitably qualified and experienced heritage consultant; (b) include detail of infrastructure, signage and various other materials to ensure the Australian native animal exhibits of the Development are fully integrated with the presentation of Aboriginal heritage; (c) outline how the experience will increase awareness and education in relation to Aboriginal heritage; (d) demonstrate how direct contact with Australian native animals will enhance the education of Aboriginal culture; and (e) demonstrate how Aboriginal people will have an ongoing participatory role in the experience. 	Operation	<p>The ACES has been prepared and forms part of the OEMP.</p> <p>It is to be updated in 2025 to reflect Muru Mittigar no longer being operational.</p>	
C22	<p>Aboriginal Cultural Heritage Management Plan (ACHMP)</p> <p>Prior to the commencement of construction, the Applicant shall prepare an ACHMP for PAD1 and PAD 2 (as identified within the EIS) outlining how these sites will be managed to the satisfaction of the Planning Secretary. The plan shall:</p> <ul style="list-style-type: none"> (a) be prepared by a suitably qualified and experienced expert in consultation with the Registered Aboriginal Parties; (b) describe the procedures for reburial or management of artefacts retrieved during site investigations, if required; (c) describe the measures to manage and/or protect any relics identified during construction and operation of the Development; (d) ensure the legal protections under Section 86 of the National Parks and Wildlife Act 1974 are incorporated into any other relevant management plan of this consent, including the landscape plans; and (e) describe the interpretive materials to be installed at the site. 	Construction	Not triggered.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
C23	<p>Unexpected Finds Protocol</p> <p>If Aboriginal objects not identified within the EIS are uncovered during earthworks, excavation or disturbance, work in the immediate area must stop immediately and the Regional Operations Group of the OEH and the Registered Aboriginal Parties are to be consulted.</p>	Construction	Not triggered.	
HERITAGE				
C24	<p>Heritage Interpretation Plan</p> <p>The Applicant shall prepare a Heritage Interpretation Plan to acknowledge the non-indigenous heritage of the site. The plan will form part of the OEMP in Condition D4 and shall:</p> <p>(a) be prepared by a suitably qualified and experienced expert in consultation with the OEH NSW Heritage Division and Council;</p> <p>(b) include provision for naming elements within the Development that acknowledges the site's heritage, such as the name of the roadways within the estate; and</p> <p>(c) incorporate interpretive information on any identified sites.</p>	Operation	This forms part of the approved OEMP.	
C25	<p>Unexpected Finds Protocol</p> <p>If any previously unidentified archaeological relics previously unidentified within the EIS are uncovered during the course of the construction of the Development, then all works shall stop immediately in that area and the OEH NSW Heritage Division contacted. Depending on the possible significance of the relics, an archaeological assessment may be required before further work can continue in that area.</p>	Construction	Not triggered.	
SOILS, EROSION AND SEDIMENTATION				
C26	<p>Imported Soil</p> <p>The Applicant shall ensure that any material imported and used as fill on the site:</p> <p>(a) is VENM as defined in Schedule A; or</p> <p>(b) meets the requirements of the EPA's Excavated Natural Material Order 2014, under the Protection of the Environment Operations (Waste) Regulation 2014.</p>	Construction	Not triggered. No fill imported.	
C27	<p>The Applicant shall:</p> <p>(a) keep accurate records of the volume and type of fill to be used; and</p> <p>(b) make these records available to the Planning Secretary upon request.</p>	Construction	Not triggered. No fill imported.	
C28	<p>Erosion and Sediment Control</p> <p>Prior to the commencement of earthworks, the Applicant shall install and maintain suitable erosion and sediment control measures on-site, in accordance with the relevant requirements in the latest version of the Managing Urban Stormwater: Soils and Construction Guideline.</p>	Construction	Not triggered. No earthworks carried out.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status										
NOISE														
C29	<p>Hours of Work</p> <p>The Applicant shall comply with the hours of work detailed in Table 2, unless otherwise agreed in writing by Council and the Planning Secretary.</p> <p>Table 2: Hours of Work</p> <table><tr><th>Activity</th><th>Day</th><th>Time</th></tr><tr><td rowspan="2">Earthworks and construction</td><td rowspan="2">Monday – Friday Saturday</td><td>7:00am to 6:00pm</td></tr><tr><td>8:00am to 1:00pm</td></tr><tr><td>Operation</td><td>Monday – Sunday</td><td>See Condition B10</td></tr></table>	Activity	Day	Time	Earthworks and construction	Monday – Friday Saturday	7:00am to 6:00pm	8:00am to 1:00pm	Operation	Monday – Sunday	See Condition B10	Construction	Not triggered.	
Activity	Day	Time												
Earthworks and construction	Monday – Friday Saturday	7:00am to 6:00pm												
		8:00am to 1:00pm												
Operation	Monday – Sunday	See Condition B10												
C30	<p>Works outside of the hours identified in Condition C29 may be undertaken in the following circumstances:</p> <p>(a) works agreed to in writing by the Planning Secretary;</p> <p>(b) for the delivery of materials and/or animals required outside these hours by the NSW Police Force or other authorities for safety reasons; or</p> <p>(c) where it is required in an emergency to avoid the loss of lives, property and/or to prevent environmental harm.</p>	Construction	Not triggered. No fill imported.											
C31	<p>Construction Noise</p> <p>The Development shall be constructed with the aim of achieving the construction noise management levels detailed in the Interim Construction Noise Guideline (Department of Environment and Climate Change, 2009). All feasible and reasonable noise mitigation measures shall be implemented and any activities that could exceed the construction noise management levels shall be identified and managed in accordance with the management and mitigation measures in the EIS.</p>	Construction	Not triggered. No fill imported.											
C32	<p>Operational Noise Limits</p> <p>The Applicant shall ensure that noise generated by the operation of the Development does not exceed the noise limits in Table 3.</p> <p>Table 3: Project Specific Noise Limits (dB(A))</p>	Operation	Complies. No noise complaints received. Noise verification reports have been signed off by DPHI in previous reporting periods.											

Condition of Consent Number	Condition	Development Phase				Evidence and Comments	Compliance Status

C32A	The Applicant shall ensure that the LA10(15minute) noise generated from the use of the site as a function centre or by any temporary and community event held on site does not exceed the background noise level in any octave band centre frequency (31.5Hz–8kHz inclusive) by more than 5 dB between 7 am and 12 midnight at the boundary of any affected residence.	Operation			Complies. No noise complaints received. Noise verification reports have been signed off by DPHI in previous reporting periods.																					
C32B	Noise Verification Report Within six months of the commencement of operation of the Development the Applicant must prepare a Noise Verification Report for the Development to the satisfaction of the Planning Secretary. The report must: a) be prepared by a suitably qualified acoustic consultant, with qualifications and experience consistent with the technical eligibility criteria for membership to the Association of Australian Acoustical Consultants or the Australia Acoustical Society; b) be prepared in consultation with Council; c) include an analysis of compliance with the noise limits specified in Condition C32 for all activities specified in Condition B10; d) include an outline of management actions to be taken to address any exceedances of the limits specified in Condition C32; and e) describe contingency measures in the event management actions are not effective in reducing noise levels to an acceptable level.	Operation			Noise Verification Report prepared by Wilkinson Murray dated 23/6/2022, confirmed on 12/8/2022 by DPE as satisfying the condition of consent. Not relevant to this AR2024 due to occurring within the AR2020-2022 reporting period.																					
C32C	A Noise Verification Report must be submitted to the satisfaction of the Planning Secretary at the following stages of the Development:	Operation			Noise Verification Report prepared by RWDI dated 6/7/2022 confirmed on 1/8/2022 by DPE as satisfying Condition C32C(a).																					

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
	<p>a) within three months of the conclusion of the Sydney Zoo Light Festival 2021 event held at the site in July and August 2021 or an equivalent temporary and community event agreed to by the Planning Secretary; and</p> <p>b) within three months of the conclusion of the first twilight concert event held at the site.</p>		<p>The first twilight concert was held however no verification was completed – no complaints were received however.</p> <p>A second noise verification report for C32(b) was submitted to DPHI in late 2024, pending a response.</p>	
C32D	<p>The Noise Verification Report required by Condition C32C must:</p> <p>a) be prepared by a suitably qualified acoustic consultant, with qualifications and experience consistent with the technical eligibility criteria for membership to the Association of Australian Acoustical Consultants or the Australian Acoustical Society;</p> <p>b) be prepared in consultation with Council;</p> <p>c) include an analysis of compliance with the noise limits specified in Condition C32 and Condition C32A for any event held on site;</p> <p>d) include an outline of management actions to be taken to address any exceedances of the limits specified in Condition C32 and Condition C32A and a timetable for the implementation of any required actions; and</p> <p>e) describe contingency measures in the event management actions are not effective in reducing noise levels to an acceptable level.</p>	Operation	<p>Noise Verification Report prepared by RWDI dated 6/7/2022 confirmed on 1/8/2022 by DPE as satisfying Condition C32C(a).</p> <p>Subsequent Verification Report for C32C(b) was submitted to Blacktown Council for consultation and a response forms part of the DPHI submission in late 2024 (pending response).</p> <p>Not relevant to this AR2024 due to occurring within the AR2020-2022 reporting period.</p>	
AIR QUALITY				
C33	<p>Dust Minimisation</p> <p>The Applicant shall implement all reasonable and feasible measures to minimise dust and odour emissions generated during demolition, earthworks, construction and operation of the Development.</p>	Operation	Dust measures including sprays are implemented to minimise dust issues.	
C34	<p>During construction and operation, the Applicant shall ensure:</p> <p>(a) exposed surfaces are suppressed by regular watering;</p> <p>(b) any vehicles (including patron vehicles) associated with the Development do not track dirt onto the public road network;</p> <p>(c) public roads are to be kept clean at all times; and</p> <p>(d) any exposed surfaces are to be stabilised as soon as practicable to minimise any dust generation.</p>	Construction/Operation	Dust measures including sprays are implemented to minimise dust issues.	
HAZARDS AND RISK				
C35	Dangerous Goods	Operation	No storage of dangerous goods above the thresholds.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
	The quantities of dangerous goods stored and handled at the site shall be below the threshold quantities listed in the Department's Hazardous and Offensive Development Application Guidelines – Applying SEPP 33 at all times.			
C36	<p>Bunding</p> <p>The Applicant shall store all chemicals, fuels and oils used on-site in appropriately banded areas in accordance with the requirements of all relevant Australian Standards, and/or the EPA's Storing and Handling of Liquids: Environmental Protection – Participants Handbook.</p>	Operation	Chemicals are stored in appropriate storage areas with bunding.	
REGULATED MATERIALS				
C37	The Applicant is to consult with the EPA regarding any regulated materials including radiation materials and obtain appropriate permits in accordance with the Radiation Control Act 1990.	Operation	No regulated materials on-site.	
WASTE				
C38	<p>The Applicant shall revise and update the Waste Management Plan provided as part of the EIS to include the following additional requirements:</p> <p>(a) detail of onsite composting;</p> <p>(b) a map of locations where composted materials are to be used;</p> <p>(c) detail of measures to be implemented to minimise leachate generation and prevention of pollution of any waters, both offsite and onsite (ponds, dams, storage); and</p> <p>(d) detail of how composting practices are being monitored.</p>	Operation	Not triggered. Composting is not being carried out. The WMP will be updated at the appropriate time.	
C39	<p>Statutory Requirements</p> <p>The Applicant shall assess and classify all liquid and non-liquid wastes to be taken off site in accordance with the EPA's Waste Classification Guidelines Part 1: Classifying Waste, November 2014, or its latest version and dispose of all wastes to a facility that may lawfully accept the waste.</p>	Operation	Waste tracking carried out. Refer Appendix F .	
C40	The Applicant shall retain all sampling and waste classification data for the life of the Development in accordance with the requirements of the EPA.	Operation	Waste tracking carried out. Refer Appendix F .	
C41	Waste generated outside the site shall not be received at the site for storage, treatment, processing, reprocessing, or disposal.	Operation	No waste received from outside the site.	
C42	The collection of waste generated during the operation of the Development not occur after 6:00pm on any day.	Operation	Waste collection occurs prior to 6pm.	
C43	Waste Storage Areas	Operation	Agreement received to enable commencement of operations/	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
	Prior to the commencement of operation of the Development, the Applicant shall obtain agreement from DPI (Animal Welfare Unit) for the design of the waste storage area for each exhibit area.			
C44	Waste shall be secured and maintained within designated waste storage areas at all times.	Operation	Waste stored in the relevant areas.	
VISUAL AMENITY				
C45	Landscaping The Applicant shall maintain the landscaping and vegetation on the site for the life of the Development.	Operation	Landscaping is maintained.	
C45A	Prior to the commencement of operation of the permanent ferris wheel on the site, the Applicant must update the approved Landscape Master Plan to incorporate ground, landscape and fencing treatments around the ferris wheel. Appropriate design solutions should be adopted ensure the ferris wheel is integrated with the overall existing approved landscape design for the Development.	Operation	Sydney Zoo DA – Ferris Wheel Landscaping Plan, undated prepared by Sydney Zoo, Drawing No. L11 Revision B, dated May 2022 – Materials and Finishes Strategy, Sydney Zoo DA, Drawing No. L17 Revision B, dated May 2022 – Planting Strategy – Native Vegetation, Sydney Zoo DA and Drawing No. L03, dated May 2022 – Landscape Plan, Sydney Zoo DA, approved by DPE on 1 August 2022 as satisfying this condition.	
C45B	The Applicant must: (a) not commence operation of the permanent ferris wheel until the updated Landscape Master Plan has been approved by the Planning Secretary; and (b) implement the updated Landscape Master Plan approved by the Planning Secretary for the life of the Development.	Operation	This has been approved and implemented.	
C46	Signage A Signage Strategy shall be submitted for the approval of the Planning Secretary, prior to the installation of any signs visible from the public domain. The Strategy shall be prepared in consultation with the RMS, Council and the Western Sydney Parklands Trust. Note: This condition does not apply to temporary construction and safety related signage	Operation	Not triggered.	
C47	Lighting The Applicant shall ensure the lighting associated with the Development: (a) complies with the latest version of AS 4282 (INT) - Control of Obtrusive Effects of Outdoor Lighting; and (b) is mounted, screened and directed in such a manner that it does not create a nuisance to surrounding properties or the public road network.	Operation	Lighting complies. No complaints received.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
C47A	<p>Prior to the commencement of operation of the permanent ferris wheel on the site, the Applicant must prepare and submit a lighting report to the satisfaction of the Planning Secretary. The lighting report must:</p> <ul style="list-style-type: none"> (a) provide details of the proposed lighting and illumination of the ferris wheel; and (b) demonstrate ferris wheel lighting will comply with the requirements of AS 4282 (INT) - Control of Obtrusive Effects of Outdoor Lighting. 	Operation	DPHI approved the lighting report on 1 August 2022.	
C47B	Within three months of the commencement of operation of the permanent ferris wheel the Applicant must prepare and submit a report to the satisfaction of the Planning Secretary verifying that light spillage from the ferris wheel will not cause any adverse amenity impacts on nearby residential areas.	Operation	DPHI approved the verification report on 14 April 2023.	
C47C	The Applicant must ensure that any lighting on or associated with the permanent ferris wheel is only operated when the ferris wheel is in use after sunset.	Operation	Lighting only operates after sunset.	
SCHEDULE D – ENVIRONMENTAL MANAGEMENT AND REPORTING				
ENVIRONMENTAL MANAGEMENT				
D1	<p>Construction Environmental Management Plan</p> <p>The Applicant shall prepare and implement a Construction Environmental Management Plan (CEMP) to the satisfaction of the Planning Secretary. The CEMP shall:</p> <ul style="list-style-type: none"> (a) be prepared by a suitably qualified and experienced person in consultation with Council; (b) be approved by the Planning Secretary prior to the commencement of construction; (c) outline all environmental management practices and procedures to be followed during earthworks and construction; (d) describe all activities to be undertaken on the site during earthworks and construction, including a clear indication of construction stages; (e) describe the specific measures to be implemented to protect the significant environmental assets on-site during earthworks and construction; (f) detail how the environmental performance of the construction works will be monitored, and what actions will be taken to address identified adverse environmental impacts; (g) describe of the roles and responsibilities of all relevant employees involved in earthworks and construction; (h) provide contact details of the site manager and principal contractors; and (i) include all sub-management plans required under Condition D2 of this consent. 	Construction	Not triggered.	
D2	As part of the CEMP required under Condition D1 of this consent, the Applicant shall include the following:	Construction	Not triggered.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
	(a) Construction Traffic Management Plan (see Condition C3); (b) Community Engagement Plan (see Condition C8); and (c) Construction Air Quality Management Plan.			
D3	The approved Construction Environmental Management Plan (as revised and approved by the Planning Secretary) shall be implemented by the Applicant for the duration of earthworks and construction.	Construction	Not triggered.	
D3A	Prior to the commencement of construction of any new exhibit, building or structure at the site approved under a modification to this consent, the Applicant must review and update the Construction Environmental Management Plan required under condition D1 to the satisfaction of the Planning Secretary.	Construction	Not triggered. No new exhibits in the reporting period.	
D3B	The Applicant must ensure that all construction work for any new exhibit, building or structure at the site is carried out in accordance with the approved Construction Environmental Management Plan approved under condition D3A above.	Construction	Not triggered. No new exhibits in the reporting period.	
D4	Operational Environmental Management Plan The Applicant shall prepare and implement an Operational Environmental Management Plan (OEMP) to the satisfaction of the Planning Secretary. The OEMP shall: (a) be prepared by a suitably qualified and experienced person in consultation with Council; (b) be approved by the Planning Secretary prior to the commencement of the operation; (c) describe all activities to be undertaken as part of the operation of the Development; (d) list statutory and other obligations that the Applicant is required to fulfil during the operation of the Development; (e) present overall environmental policies, guidelines and principles to be applied to the operation of the Development; (f) provide details of how environmental performance would be managed and monitored to meet acceptable outcomes, including what actions will be undertaken to address identified potential adverse environmental impacts; (g) include all sub-management plans required under Condition D5 of this consent.	Operation	The OEMP has been approved by the Planning Secretary. This is currently undergoing review and will be updated in 2025. Items have been assessed in this Annual Review and identified where improvements can be made.	
D5	As part of the OEMP required under Condition D4 of this consent, the Applicant shall include the following: (a) Operational Traffic Management Plan (see Condition C5); (b) Community Engagement Plan (see Condition C8); (c) Aboriginal Cultural Experience (see Condition C21); (d) Heritage Interpretation Plan (see Condition C24); and (e) Operational Air Quality Management Plan.	Operation	These reports have been approved by the Planning Secretary. They are currently undergoing review and will be updated in 2025 as required.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
D6	D6. The approved Operational Environmental Management Plan (as revised and approved by the Planning Secretary) shall be implemented by the Applicant for duration of operation of the Development.	Operation	The OEMP is implemented and items assessed further in this Annual Review.	
ANNUAL REVIEW				
D7	<p>Each year, unless otherwise agreed by the Planning Secretary, the Applicant shall review the environmental performance of the Development to the satisfaction of the Planning Secretary. This review shall:</p> <ul style="list-style-type: none"> (a) include a comprehensive review of the monitoring results and complaints records received by the Development over the previous calendar year, which includes a comparison of these results against the: <ul style="list-style-type: none"> i) relevant statutory requirements, limits or performance measures/criteria; ii) requirements of any plan or program required under this consent; iii) monitoring results of the previous years; and iv) relevant predictions in the EIS; (b) identify any non-compliance over the last year and describe the actions that were (or are being) taken to ensure compliance; (c) identify any trends in monitoring data over the life of the Development; (d) identify any discrepancies between the predicted and actual impacts of the Development and analyse the potential cause of any significant discrepancies; (e) describe what measures will be implemented over the next year to improve the environmental performance of the Development; and (f) verify the total daily visitor numbers for private zoo experiences / small group tours commencing between the hours of 7:30 am and 9 am has not exceeded the limit of 1,500 persons and include an outline of management actions to be taken to address any exceedance of the limit on visitor numbers and ensure ongoing compliance with the requirements of this consent. 	Operation	This Annual Review has been prepared in response to this condition.	
REPORTING				
D8	<p>Incident Reporting</p> <p>The Applicant shall notify the Planning Secretary and any other relevant agencies of any incident or potential incident with actual or potential significant off-site impacts on people or the biophysical environment associated with the facility immediately after the Applicant becomes aware of the incident.</p>	Operation	No incidents reported.	
D9	Within seven days of the date of this incident, the Proponent shall provide the Planning Secretary and any relevant agencies with a detailed report on the incident.	Operation	No incidents reported.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
D10	Regular Reporting The Applicant shall provide regular reporting on the environmental performance of the Development on its website, in accordance with the reporting arrangements in any plans or programs approved under the conditions of this consent.	Operation	Reporting is provided online on the Zoo website and in accordance with the condition.	
AUDITING				
D11	<p>Within two years of the date of this consent, and every three years thereafter, unless the Planning Secretary directs otherwise, the Applicant shall commissions and pay the full cost of an Independent Environmental Audit of the Development. The audit shall:</p> <ul style="list-style-type: none"> (a) be conducted by a suitably qualified, experienced and independent team of experts whose appointment has been endorsed by the Planning Secretary; (b) include consultation with the relevant agencies; (c) assess the environmental performance of the Development and assess whether it is complying with the requirements of this consent and any other relevant approvals (including any assessment, plan or program required under these approvals); (d) review the adequacy of any approved strategy, plan or program required under the abovementioned consents; and (e) recommend measures of actions to improve the environmental performance of the Development, and/pr strategy, plan or program required under these consents. <p>Note: This audit team shall be led by a suitably qualified auditor and include relevant experts in any other fields specified by the Planning Secretary.</p>	Operation	The first IEAR was completed in time however the IEAR in 2024 was not. This has been rectified and the next IEAR will be prepared in 2027.	
D12	Within three months of commissioning this audit, or as otherwise agreed by the Planning Secretary, the Applicant shall submit a copy of the audit report to the Planning Secretary, together with its response to any recommendations contained within the audit report.	Operation	The IEAR and a response was submitted to DPHI and a response was received on 23/10/2024.	
ACCESS TO INFORMATION				
C13	<p>The Applicant shall make the following information publicly available on its website and keep the information up to date:</p> <ul style="list-style-type: none"> (a) make copies of the following publicly available on its website: <ul style="list-style-type: none"> i) the documents referred to in Condition B2; ii) all current statutory approvals for the development; iii) all approved strategies, plans and programs required under the conditions of this consent; iv) a comprehensive summary of the monitoring results of the development, reported in accordance with the specifications in any conditions of this consent, or any approved plans and programs; 	Operation	The relevant information is provided on the Sydney Zoo website except where confidential in nature.	

Condition of Consent Number	Condition	Development Phase	Evidence and Comments	Compliance Status
	v) a complaints register, updated on a monthly basis; vi) the annual reviews of the development; vii) any independent environmental audit of the development, and the Applicant's response to the recommendations in any audit; viii) any other matter required by the Planning Secretary; and (b) keep this information up to date, to the satisfaction of the Planning Secretary. Note: This condition does not require any confidential information to be made available to the public.			

Appendix B – Action Status Table

The following addresses the actions taken/to be taken based on this AR2024, and in response to those indicated within the IEAR Response prepared by Sydney Zoo and submitted to DPHI.

Table 1: Audit specific recommendations

Auditor Reference	Item	Audit Recommendation	Sydney Zoo Response from RAR	Current Action Status
G106	Environmental Audit	The next Operation Audit shall be completed within 3 years from the issue of this final report.	The late audit is the subject of this report. We will commence on time for future audits and enable time for these to be prepared.	N/A
G200	Work Place Travel Plan	Workers travel surveys should be conducted to determine if the objectives of the Work Place Travel Plan are being met, or this requirement should be removed from the Work Place Travel Plan.	Workers travel survey to be completed by 30 September 2024. If necessary, WPTP to be updated to reflect survey outcomes/remove survey requirement	Travel survey completed in September 2024 and WPTP being reviewed for updates. TfNSW approached in terms of bus service frequency to inform WPTP update.
G214	Waste management tracking – clinical waste tracking	The Zoo should ensure that waste collector compiles with the Environment Operations (Waste) Regulation 2014 and tracking document is retained for 4 years	Sydney Zoo are currently changing waste contractors. Waste tracking processes and procedures to be implemented by 3 September 2024.	New Waste Contractor in place, and tracking documentation being retained.
G219	Waste management tracking – animal carcass and cytotoxic waste	Disposal records for all waste (including animal carcasses) should be retained in file	See above.	New Waste Contractor in place, and tracking documentation being retained.
G220	Clinical waste tracking and Consignment authority and waste transport certificate	Consignment authority and waste transport certificate must be retained for a period of 4 years. Waste collector must comply with the Environment Operations (Waste) Regulation 2014	See above.	New Waste Contractor in place, and tracking documentation being retained.
G228	Biodiversity Management Plan and Cumberland Plain Management Plan (BMP and CPWMP) Monitoring	An Updated Biodiversity Management Plan and Cumberland Plain Woodland Management Plan should be prepared, which provides a updated management requirements and the responsibilities for Sydney Zoo and the WSPT.	An updated Biodiversity Management Plan and Cumberland Plain Management Plan is to be completed by 31 December 2024.	Updates to Biodiversity Management Plan and Cumberland Plain Management Plan to be completed in 2025, as pending lodgement of a Modification Application to DPHI that will impact the proposed update.
G229	Aboriginal cultural experience strategy	The Aboriginal Cultural Experience Strategy should be reviewed to confirm the updated strategy and any revision must be submitted to the Planning Secretary.	Sydney Zoo are to seek a modification to the SSD consent to amend the relevant condition of consent to remove the mention of Muru Mittigar. An update to the ACES will also be completed and sit within the OEMP.	Modification application to be prepared in 2025 to update and address this. The ACES has been updated in draft form to be finalised.

Table 2: Recommendations and Opportunities for Improvements

Auditor Recommendation	Sydney Zoo Response from RAR	Current Action Status
<i>Administrative</i>		
A copy of this IEA and the Zoo's response must be uploaded to the public website following completion of this IEA.	This IEA and Response Document will be made available on the Sydney Zoo website.	Complete.
The subsequent Independent Environmental Audit should be completed within three years of the completion of the current audit.	The next Audit will be carried out in early 2027 with completion by mid-2027.	Noted.
The current induction material is considered to provide high level requirements for the implementation of the SSD Conditions. It would be prudent to update the induction material to include the information as per SSD requirements.	Noted. The induction material will be updated as required based on the information within the Audit.	Completed.
<i>Reports and Annual report requirements</i>		
Subsequent annual reports should include all the items listed in this condition and should be prepared in accordance with the Compliance Reporting Post Approval Requirements (Department 2020) (CRPAR) https://www.planning.nsw.gov.au/assess-and-regulate/aboutcompliance/inspections-and-enforcements/compliance-reporting-post-approval-requirements).	Noted. The current 2024 Annual Report is commencing preparation and will follow this format including all conditions of consent for compliance confirmation.	Completed.
The subsequent annual report should include items to address energy, water efficiency, electric vehicles travel distance and the annual stocktake of dangerous goods.	Noted. The 2024 Annual Report will address these items.	Completed.
<i>OEMP and sub-plans</i>		
OEMP review be conducted biannually as per the OEMP requirements and considers guest comments, agency input or response from DPHI , maintenance. operational activity details, environmental monitoring outcomes, incidents and non-conformances, changes in organisation structure and responsibilities, changes in standards and legislation and changes in relevant sub-plans.	An OEMP review is due to commence shortly and be completed by the end of 2024 with updates to sub-plans as required.	OEMP Review continuing through 2025 based on proposed Modification Applications that will require amendments to sub-plans.
Revised plans should be submitted to the Planning Secretary for approval.	Noted.	Note.
The Aboriginal Cultural Experience Strategy should be reviewed to confirm the updated strategy and any revision must be submitted to the Planning Secretary.	An update to the ACES will also be completed and sit within the OEMP.	Per above.
The Waste Management Plan should be reviewed to ensure relevancy.	The WMP will be reviewed.	Per above.
The Bushfire Risk Management Plan should be updated include evacuation routes, firefighting protocols and hydrant locations, so the document can be a standalone document.	The BRMP will be reviewed and updated as required.	Per above.
The Community Consultation and Engagement Plan must be updated to reflect the requirement for the operational phase only.	The Engagement Plan will be reviewed and updated to reflect operation only noting construction has been completed.	Currently being reviewed to focus on operational elements.
An Updated Biodiversity Management Plan and Cumberland Plain Woodland Management Plan should be prepared, which provides an updated management requirements and the responsibilities for Sydney Zoo and the Western Sydney Parklands Trust .	These are being reviewed to address the commentary from the WSPT in relation to management responsibilities.	Per above.
<i>Implementation of OEMP & Subplans</i>		

Auditor Recommendation	Sydney Zoo Response from RAR	Current Action Status
Sydney Zoo should inform DPHI on the EPA's advice that water monitoring is no longer required. The DPHI advice will be required on the cessation of the Water Quality Monitoring Program for the site.	Noted. This advice from the EPA will be provided to DPHI to identify the pathway forward and a modification to the SSD submitted to address any changes.	EPA Advice to be forwarded to DPHI shortly.
Observation of imported materials should be recorded on the potential presence of asbestos for future material importation. It may be prudent to also conduct asbestos testing to ensure the material does not contain asbestos.	Noted.	Noted.
Should any soil material be imported for filling purpose, a register should be prepared to keep these records.	A register will be kept if required.	Noted.
Any sighting of threatened species should be reported to OEH Atlas of NSW Wildlife.	Noted.	Noted.
The Zoo should ensure that waste collector complies with the Environment Operations (Waste) Regulation 2014 and tracking document is recorded and filed.	Sydney Zoo are currently changing waste contractors. Waste tracking processes and procedures to be implemented by 3 September 2024.	New Waste Contractor in place, and tracking documentation being retained.
Disposal records for all waste (including animal carcasses) should be retained in file. Consignment Authority and waste transport certificate must be retained for at least 4 years.	Sydney Zoo are currently changing waste contractors. Waste tracking processes and procedures to be implemented by 3 September 2024.	New Waste Contractor in place, and tracking documentation being retained.
Waste bins or storage area adjacent to the administration building should be kept inaccessible to public, e.g. through the use of bin locks or lockable gates.	Noted. Sydney Zoo will look to address.	Complete.
The zoo should continue to increase the Aboriginal employment at the zoo in line with the Zoo OEMP target and consider including the relevant Aboriginal stakeholders in the annual review of Aboriginal Heritage Experience Strategy.	Noted. Sydney Zoo will review the ACES to identify how this can progress and update the OEMP as required.	Modification application to be prepared in 2025 to update and address this.
Consignment Authority and waste transport certificate must be retained for a period of 4 years.	Sydney Zoo are currently changing waste contractors. Waste tracking processes and procedures to be implemented by 3 September 2024.	New Waste Contractor in place, and tracking documentation being retained.
Workers travel surveys should be conducted to determine if the objectives of the Work Place Travel Plan are being met, or this requirement should be removed from the Work Place Travel Plan.	Workers travel survey to be completed by 30 September 2024. If necessary, WPTP to be updated to reflect survey outcomes/remove survey requirement	Travel survey completed in September 2024 and WPTP being reviewed for updates. TfNSW approached in terms of bus service frequency to inform WPTP update.

Appendix C – Operational Environmental Management Plan

Section 6.1 Compliance

Stormwater and Water Quality Management

Environmental Objectives		Compliance
<ul style="list-style-type: none"> To avoid detrimental impact on the water quality and environment of Eastern Creek. To comply with Section 120 of the <i>Protection of the Environment Operations Act 1997</i>, which prohibits the pollution of waters. To prevent release of potential contaminants to receiving environments. 		
Mitigation Measures	Responsibility	
Pollution control equipment / spill kits suitable for containing spills that may arise shall be kept in clearly marked accessible locations adjacent to relevant activities (see map). Instructions for spill clean-up procedures to be made available with equipment / kits. Maintain emergency spill kits on-site at all times.	Operations Manager	Compliant
Make all staff aware of the location of the spill kits as part of the employment induction	Head of Culture and Visitor Experience	Compliant
Staff members are to be trained in the use of the spill kits as part of induction with regular refresher courses (every 12 months) to ensure that spills are contained and cleaned up in a manner that minimises the opportunity for environmental harm.	Operations Manager	Compliant
Handle, store and use dangerous goods and hazardous materials in accordance with: the NSW Occupational Health and Safety Act 2000; the Storage and Handling of Dangerous Goods Code of Practice (WorkCover NSW, 2005); NSW Road and Rail Transport (Dangerous Goods) (Road) Regulation 1998; and Australian Government's Code for the Transport of Dangerous Goods by Road and Rail (National Transport Commission, 2008).	Operations Manager	Compliant
Hazardous materials and dangerous goods will be stored within a bunded and secure storage facility on-site.	Operations Manager	Compliant
Prevention of runoff and wastewater from the zoo entering the adjacent watercourse through the implementation of a constructed wetlands and harvesting pond in the west of the site.	Operations Manager	Compliant
Prepare and implement maintenance schedule for implementation of procedures for ensuring maintenance is frequent, and also after any large storm events	Operations Manager	Compliant
Prepare and implement a schedule for aquarium discharge and processes for managing outflows to ensure compliance with the water monitoring program targets	General Manager, Life Sciences Operations Manager	Compliant
Monitoring	Responsibility	
Conduct water sampling at the five sample locations twice per month in accordance with the Water Quality Monitoring Plan	General Manager, Life Sciences Operations Manager	Non-compliant – monitoring has been reduced based on EPA commentary and monitoring program.
Monthly inspection of stormwater quality devices, swales, wetlands and pond systems and maintenance as required.	Operations Manager	Compliant – refer above
Reporting	Responsibility	
Spill incident report sheets are to be completed for chemical (including oils/oily waters) spills on-site, including recording details of the actions taken during the event.	Operations Manager	Compliant

Environmental Objectives		Compliance
Any spills that enter the site stormwater system to recorded in the Annual Report.	Operations Manager	Compliant
Prepare a monthly summary report of water monitoring results to inform the Annual Report.	General Manager, Life Sciences Operations Manager	Compliant.
<i>Performance Indicators</i>		
1. Compliance with the water quality screening targets contained within the Water Quality Monitoring Plan (Appendix D).	General Manager, Life Sciences Operations Manager	Compliant
2. Preparation of monthly water quality results summary report	Operations Manager	Compliant
3. Preparation of Annual Report and submission to Department of Planning and Environment for approval	Head of Culture and Visitor Experience	Compliant

Waste Management

Environmental Objectives		Compliance
To minimise waste generated at the site and reduce to volume of waste requiring disposal to landfill.		-
To prevent disposal of waste from site to receiving environments.		-
To maintain the site in a neat and tidy state without build-up of litter.		-
To ensure compliance with the Protection of the Environment Operations (Waste) Regulation 2014		-
Mitigation Measures		Responsibility
Follow the recommendations of the Operational Waste Management Plan (Appendix E) dated October 2015 or as updated.		Operations Manager Compliant.
Assess and classify all liquid and non-liquid wastes to be taken off site in accordance with the EPA's Waste Classification Guidelines Part 1: Classifying Waste, November 2014, or its latest version and dispose of all wastes to a facility that may lawfully accept the waste.		Operations Manager Maintenance Team Compliant
Waste generated outside the site shall not be received at the site for storage, treatment, processing, reprocessing, or disposal.		Operations Manager Maintenance Team Compliant
The collection of waste generated during operation will not occur after 6:00pm on any day unless the opening hours of the site are till late (during summer).		Operations Manager Maintenance Team Compliant
Waste shall be secured and maintained within designated waste storage areas at all times		Operations Manager Maintenance Team Compliant
Retain all sampling and waste classification data for the life of the Zoo in accordance with the requirements of the EPA.		Operations Manager Maintenance Team Compliant
Reduce, reuse and recycle wherever possible		Sydney Zoo staff Compliant
Classify all liquid and non-liquid wastes to be taken off site in accordance with the EPA's Waste Classification Guidelines Part 1: Classifying Waste, November 2014, or its latest version		Operations Manager Maintenance Team Compliant
Collect recyclable and putrescible wastes in a way that enables maximum recovery of recyclables.		Operations Manager Maintenance Team Compliant
Suitably space waste collection points including bins throughout the public and back of house areas per Appendix L.		Operations Manager Maintenance Team Compliant
Source materials for retail packaging that use recycled content, use bulk purchasing to avoid packaging, and avoid the use and distribution of single use plastic bags.		Head of Retail Head of Food and Beverage Compliant
Monitoring		Responsibility
Monitor quantities (volume and/or weight) of waste recovery in to determine whether storage areas and collection frequencies are adequate.		Operations Manager Maintenance Team Compliant
A review shall be incorporated into routine management meetings to assess the efficiency of the waste management regime and identify strategies to improve waste management at the facility.		Operations Manager Compliant
Reporting		Responsibility
Waste recovery data to be provided in a monthly summary report for public display on the website		Head of Food and Beverage Compliant
Performance Indicators		
Visual inspection of on-site storage and permanent drains shall be used to assess compliance with waste management plan. The following shall indicate a failure and the need for corrective action:		Compliant
<ul style="list-style-type: none"> presence of litter on the property or in adjacent environments; and presence of pests or nuisance species 		

Environmental Objectives	Compliance
Compliance with the regulations for waste management.	Compliant
Achieve a waste recovery target of 60%	Ongoing

Noise Management

Environmental Objectives		Compliance
To comply with the conditions of Project Approval, including the project specific noise criteria.		-
To minimise operational noise impact on nearby sensitive receptors.		-
<ul style="list-style-type: none"> To ensure compliance with the following legislation: NSW Industrial Noise Policy; Noise Guide for Local Government; NSW Road Noise Policy; Protection of the Environment Operations Act 1997; and The Protection of the Environment Operations (Noise Control) Regulation 2008. 		-
Mitigation Measures		Responsibility
Minimise unnecessary public announcements	Head of Culture and Visitor Experience	Compliant
Restrict the use of horns on delivery vehicles and buses	Operations Manager Animal Curators Zoo Keepers	Compliant
Monitoring		Responsibility
Monitor relationships with key stakeholders through the avenues described above (community liaison group, phone line).	Community Liaison Team	Compliant
Reporting		Responsibility
All complaints to be reported within the complaints register	Head of Culture and Visitor Experience	Compliant
Performance Indicators		
No complaints relating to noise from key stakeholders or nearby residents		Compliant

Air Quality and Odour Management

Environmental Objectives		Compliance
Ensure air emissions (including dust and odour) are prevented		-
Ensure compliance with Protection of the Environment Operations Act 1997 and Clean Air Regulation		-
Mitigation Measures	Responsibility	
Employees to report the presence of odours, particularly in unexpected places, to site environmental manager.	Sydney Zoo staff	Compliant
Maintaining an Odour Register which captures all complaints from employees, patrons and off-site receptors	Head of Operations Operations Manager	Compliant
Use electric vehicles for everyday operations movement within the site	Head of Operations Head of Food and Beverage	Compliant
Restrict unnecessary idling of delivery vehicles when loading/unloading	Operations Manager Maintenance Team	Compliant
Minimise use of diesel generators unless required by emergency protocols	Managing Director	Compliant
Monitoring	Responsibility	
All reported odours to be investigated within 24 hours.	Head of Operations General Manager Life Sciences	Compliant
Measure distance travelled by electric vehicles annually	Operations Manager	Compliant
Reporting	Responsibility	
All investigated odours to be documented within 1 week of the investigation, identifying whether the odour was likely to have been caused by an on-site operational activity. The outcome of all investigations to be recorded in the Odour Register.	Operations Manager	Compliant
Report all monitored results in the Annual Report.	Head of Culture and Visitor Experience Operations Manager	Compliant
Odour Register to be summarised in the Annual Report.	Head of Culture and Visitor Experience Operations Manager	Compliant
Performance Indicators		
Zero odour complaints from off-site receptors.		Compliant

Traffic and Transport Management

Environmental Objectives		Compliance
Maximise visitor's use of public transport when accessing the site	-	
Maximise employee's use of public transport when accessing the site	-	
Minimise traffic conflict between vehicles and pedestrians, and between visitors and site provisioning vehicles.	-	
Management and Mitigation Measures	Responsibility	
<ul style="list-style-type: none"> Prepare and implement Operational Traffic Management Plan. 	Head of Culture and Visitor Experience	Compliant
<ul style="list-style-type: none"> online booking systems, with allocated visiting periods and staggered timing 	Head of Culture and Visitor Experience Head of Marketing	Compliant
<ul style="list-style-type: none"> peak period availability of additional accessible parking spaces priority time allocated ticket purchases promotion of access via the M7 Motorway promotion of arrivals via public transport promotion of car pooling combined tour packages with other tourist destinations potential for additional regular route bus services and direct shuttle bus services between Blacktown Railway Station and the site (subject to further consultation with TfNSW) promotion of school tours during off-peak periods preparation of a Transport Access Guide for visitors extended opening hours, particularly during peak periods to flatten out the peak 	Head of Culture and Visitor Experience Head of Marketing	Compliant
<p>Condition C2</p> <p>Traffic associated with the Zoo must not utilise public and residential streets or public parking facilities.</p> <p>Reasonable and feasible measures to be implemented in the event of an overflow to minimise queuing on the surrounding road network. (to be documented in the OTMP), such as the use of the Sydney Motorsport Park, with shuttle buses to be provided between the overflow parking area and the Zoo entrance.</p>	Operations Manager	Compliant
<p>Condition C4 Operating Conditions</p> <ul style="list-style-type: none"> all trucks entering or leaving the site with loads have their loads covered and do not track dirt onto the public road network. heavy vehicles and bins associated with the Development are not parked on local roads or footpaths in the vicinity of the site; all loading and unloading of materials is carried out on-site; turning areas in the car park are kept clear of any obstacles, including parked cars, at all times. 	Operations Manager	Compliant
An initial opening period transport management plan will be prepared with considering for the peak opening period and specific opening events which would be expected to have different traffic generating impacts compared to normal operation.	Operations Manager	Compliant
Preparation and implementation of a Work Place Travel Plan, including a Transport Access Guide for peak periods when part-time and casual staff significantly increase (i.e. summer)	Operations Manager	Compliant
Monitoring	Responsibility	
Conduct a visitor survey to identify the mode used by guests to arrive and depart the site.	Head of Culture and Visitor Experience	Compliant
Biannual traffic counts and carpooling counts (average people per vehicle), analysed against turnstile to establish average 'car movements per visitor'.	Community Liaison Team	Compliant
Annual review of the Work Place Travel Plan, in consultation with staff.	Head of Culture and Visitor Experience	Compliant
Reporting	Responsibility	

Environmental Objectives		Compliance
Document results of monitoring in annual report	Head of Culture and Visitor Experience	Compliant
<i>Performance Indicators</i>		
Increasing use of public transport by visitors over first 5 years of operations.		Ongoing
Increasing use of public transport by employees over first 5 years of operations.		Ongoing

Animal Welfare and Biosecurity

Environmental Objectives		Compliance
Achieve best practice for animal welfare (Condition C18)		-
Comply with National Zoo Biosecurity Manual 2011 (Condition C18), Exhibited Animals Protection Act 1986, Exhibited Animals Protection Regulation 2010 and the NSW Biosecurity Act 2015 (Condition C19)		-
Obtain all relevant approvals from the Department of Primary Industries – Animal Welfare Unit. (Condition C20)		-
Mitigation Measures	Responsibility	
Interpretive information installed on opening to be maintained.	Operations Manager	Compliant
Support both in-situ and ex-situ conservation programs	Sydney Zoo Management Team	Compliant
Wherever possible educate the public on the plight of wildlife and their habitats through the use of interpretive signage and keeper talks	Sydney Zoo Management Team	Compliant
Promote the sale of retail products that support in-situ conservation programs which result in real and measurable benefits to species in the wild	Sydney Zoo Management Team	Compliant
Remain committed to supporting the Zoo and Aquarium Association endorsed species management and breeding programs	Sydney Zoo Management Team	Compliant
Monitoring	Responsibility	
Annual inspection of interpretive information.	General Manager Life Sciences	Compliant
Reporting	Responsibility	
Any maintenance of interpretive information recorded in Annual Report.	Head of Culture and Visitor Experience General Manager Life Sciences Operations Manager	Compliant
Performance Indicators		
Interpretive information retained and maintained for the life of the development.		Compliant

Vegetation and Landscape Management

Environmental Objectives		Compliance
Ensure no retained native vegetation is removed or damaged by ongoing operational activities (Condition C14)		-
Protect and enhance biodiversity values around the site		-
Improve ecological health and integrity by revegetating with native species		-
Mitigation Measures	Responsibility	
Biodiversity Management Plan (Condition C15). This is to be updated every 5 years.	General Manager Life Sciences	Compliant. Undergoing review.
Cumberland Plain Woodland Plan of Management (Condition C16) (forming part of the Biodiversity Management Plan). This is to be updated every 5 years.	General Manager Life Sciences	Compliant. Undergoing Review.
Retained Cumberland Plain Woodland to be fenced and signposted (Condition C17)	General Manager Life Sciences Operations Manager	Compliant
Maintenance of landscaped areas and Cumberland Plain Woodland in accordance with the Biodiversity Management Plan (Appendix F).	Operations Manager	Compliant
Monitoring	Responsibility	
Regeneration monitoring at the beginning and end of the establishment period	Operations Manager	Compliant
Monitoring is also to be undertaken annually every year during the maintenance period until the completion of management works	Operations Manager	Compliant
Keep a record of native animal visitations (e.g. birds and mammals)	General Manager Life Sciences	Compliant
Reporting	Responsibility	
Regeneration and animal visitations recorded in Annual Report.	General Manager Life Sciences Operations manager	Compliant
Report siting of Threatened Species to OEH Atlas of NSW Wildlife.	General Manager Life Sciences	Compliant
Progress reports to be prepared and included in the monitoring reports. Copies to be sent to Blacktown Council.	General Manager Life Sciences	Non-compliant. Progress reports not completed.
Performance Indicators		
Biodiversity value of retained native vegetation maintained and/or improved.		Ongoing
Commencement or completion of all tasks outlined in the Biodiversity Management Plan		Ongoing
An increase in native cover and diversity and a decrease in exotic cover and diversity by the end of the maintenance period		Ongoing
At the end of each year, a minimum of 85% survival rate of all vegetation strata planted in each zone (e.g. tree, shrub and groundcover)		Ongoing
Any localised plant failure within planting areas are addressed with no area larger than 2 m x 2 metres without surviving plants at the end of each year;		Ongoing
Maintenance replanting is to replace plants by the same species, or where that species is not available, with the same growth form (i.e. tree for tree etc.) and must not decrease species diversity. Any new species to be planted must be from the community being emulated and of local provenance;		Ongoing
Performance criteria outlined in Biodiversity Management Plan achieved (Appendix F) for each year of the management plan.		Ongoing

Heritage Interpretation

Environmental Objectives		Compliance
Implement Heritage Interpretation Plan.		-
<i>Mitigation Measures</i>	<i>Responsibility</i>	
Interpretive information installed on opening to be maintained.	Head of Culture and Visitor Experience	Compliant
<i>Monitoring</i>	<i>Responsibility</i>	
Annual inspection of interpretive information.	Head of Culture and Visitor Experience	Compliant
<i>Reporting</i>	<i>Responsibility</i>	
Any maintenance of interpretive information recorded in Annual Report.	Head of Culture and Visitor Experience	Compliant
<i>Performance Indicators</i>		
Interpretive information retained and maintained for the life of the development.		Compliant

Aboriginal Cultural Experience Management

Environmental Objectives		Compliance
Implement Aboriginal Heritage Experience Strategy		-
Provide employment and training opportunities for Aboriginal rangers, cultural educators and contractors		-
<i>Mitigation Measures</i>	<i>Responsibility</i>	
Interpretive information installed on opening to be maintained.	Head of Culture and Visitor Experience	Compliant
<i>Monitoring</i>	<i>Responsibility</i>	
Annual inspection of interpretive information.	Head of Culture and Visitor Experience	Compliant
Annual review of Aboriginal Heritage Experience Strategy with provider and relevant Aboriginal stakeholders (including Aboriginal employees)	Head of Culture and Visitor Experience	Compliant
<i>Reporting</i>	<i>Responsibility</i>	
Any maintenance of interpretive information recorded in Annual Report.	Head of Culture and Visitor Experience	Compliant
<i>Performance Indicators</i>		
Interpretive information retained and maintained for the life of the development.		Compliant
Between 20 and 30 full time Aboriginal positions at Sydney Zoo in various roles		Ongoing – Aspirational target

Energy and Water Consumption

Environmental Objectives		Compliance
To reduce the use of non-renewable water and energy resources.		-
To reduce the greenhouse gas emissions from the site		-
Mitigation Measures	Responsibility	
Investigate opportunities for alternate energy provision after an initial review period of operation, including on-site renewable energy, such as solar power	General Manager Life Sciences	Ongoing
Investigate the feasibility of using electric powered mobile plant on site rather than diesel generators.	General Manager Life Sciences Operations Manager	Ongoing
Utilise energy efficient plant, appliances and lighting	General Manager Life Sciences	Compliant
Monitoring	Responsibility	
Monitor water main and sub-meters to detect leaks, monthly	Operations Manager	Compliant
Monitor electrical main and sub-meters, monthly	Operations Manager	Compliant
Monitor distance travelled by electric vehicles on site annually	Operations Manager	Compliant
Reporting	Responsibility	
Document results of monitoring in annual report.	General Manager Life Sciences Operations Manager	Compliant
Publish details of distance travelled by electric vehicles on website.	Head of Marketing Operations Manager	Compliant
Performance Indicators		
Decreasing water and electricity demand on an annual basis over the first 5 years of operation.		Ongoing

Hazardous Materials and Dangerous Goods

Environmental Objectives		Compliance
Ensure hazards associated with storing and handling hazardous materials and dangerous goods are appropriately managed to minimise risks to visitors and employees		-
Mitigation Measures		Responsibility
Comply with Workplace Health and Safety legislation and Australian Dangerous Goods Code.		Managing Director
A register shall be maintained of all dangerous and hazardous substances to be kept in the administration building including the Material Safety Data Sheets (MSDS) for each substance. A plan shall be provided with the register of MSDSs which shows the location of dangerous and hazardous goods stored at the site, as well as the location of spill kits or other pollution control equipment and other relevant information.		Operations Manager
A copy of the MSDS for each hazardous material / dangerous good stored at the site will be available at the point of storage (in addition to the copy in the administration building).		Operations Manager
All dangerous goods to be stored in quantities below the Department of Planning's Applying SEPP 33 Guideline.		General Manager Life Sciences Operations Manager
No material regulated under the Radiation Control Act 1990 to be accepted at the site without prior authorisation from the EPA.		Operations Manager
Restrict smoking within the Zoo grounds.		Head of Culture and Visitor Experience
Monitoring		Responsibility
Annual review of hazardous materials and dangerous goods to ensure Materials Safety Data Sheets are available.		Operations Manager
Reporting		Responsibility
Non-compliances with Workplace Health and Safety requirements recorded in Annual Report.		General Manager Life Sciences Operations Manager
Annual stocktake of Dangerous Goods to be recorded in Annual Report and storage volumes assessed against quantities set out in the Department of Planning's Applying SEPP 33 Guideline.		Operations Manager
Performance Indicators		
Zero Workplace Health and Safety incidents targeted.		Ongoing
All dangerous goods to be stored in quantities below the Department of Planning's Applying SEPP 33 Guideline.		Compliant

Bushfire Hazard Management

Environmental Objectives		Compliance
<ul style="list-style-type: none"> Ensure bushfire hazards are appropriately managed to minimise risks to visitors and employees from bushfires 		-
Mitigation Measures		Responsibility
Implement appropriate hazard reduction program in consultation with Western Sydney Parklands and Cumberland Zone Rural Fire Service where woodland vegetation is within or above threshold.		Managing Director
Maintain access roads and tracks within the site and consider the following ongoing management of any buildings and landscaped areas: <ul style="list-style-type: none"> Removal of combustible material, particularly litter in gutters, near buildings. Removing excess amounts of fuel from garden areas (including organic mulch). Ensuring garden plantings do not overhang any buildings, tree canopies are discontinuous, and shrubs are not positioned within two metres of buildings. 		Operations Manager
Prepare a Bushfire Emergency Management Plan outlining evacuation routes, firefighting protocols and hydrant locations.		Operations Manager
Monitoring		Responsibility
Inspect buildings and vegetation for bushfire risks by 1 September every year to prepare for the bushfire season		General Manager Life Sciences Operations Manager
Reporting		Responsibility
Review Bushfire Emergency Management Plan by 1 November every year to confirm or update management measures.		General Manager Life Sciences Operations Manager
Performance Indicators		
Undertake bushfire hazard reduction maintenance works by 1 November each year.		Compliant

11. Appendix D – Compliance Report Declaration Form

Condition D7 Annual Review January 2024-December 2024
Compliance Report Declaration Form

Project Name	Sydney Zoo
Name of Operator	Sydney Zoo Pty Ltd
Development Consent	SSD 7228
Development Consent Holder	Sydney Zoo
Description of Project	Construction and operation of a zoological facility within the Western Sydney Parklands.
Project Address	700 Great Western Highway, Bungarribee, NSW 2767
Annual Review Start Date	1 January 2024
Annual Review End Date	31 December 2024

Subject: RE: SSD 7228 - Sydney Zoo - Consent Condition C12 - Water Quality Monitoring Program - Consultation

Hi Jake,

Thanks for following up and sorry for the delayed response.

Thank you for the opportunity to comment on the Discharge Water Monitoring Assessment for Sydney Zoo. As the EPA does not have an ongoing regulatory role for this matter, the EPA has decided that we will not provide any further comments on the water quality program or assessment.

I take this opportunity to remind you that it is the responsibility of Sydney Zoo to ensure that it has sufficient checks and balances in place, including to robust Water Quality Monitoring Program, to ensure that no pollution of water under s.120 of the POEO Act occurs due to your activities.

Kind regards,

Claire McQueeney

Dear James,

Further to our previous emails, please find attached the report for the review and comment from EPA. Hopefully this should satisfy condition c12.

Please let me know if you have any questions. I apologise for the delay – it dropped from my attention and I have been sitting on it for too long

Sincerely
Jake

Hi Mark / Jake

On the brief outline you have proposed, the report structure appears acceptable. The expectation of the EPA is that this report will need to fulfil the requirements of Condition C12.

Once the EPA has reviewed the report, we will provide any comments/requests for further information. Can you please provide an indication on when the report will be made available?

Kind Regards

Subject: RE: SSD 7228 - Sydney Zoo - Consent Condition C12 - Water Quality Monitoring Program - Consultation

Hi James,

Just to jump in....

Jake sent you the original Proposed Water Quality Monitoring Programme (i.e. the plan pre-Development Consent) and was asking whether our proposed (to be prepared) report - as specified in paragraphs 3 and 4 of his e-mail (dated 1 June 2020) is acceptable. This proposed report will present the data and assess the performance of the stormwater and enclosure effluent systems for your review.

If this type and format of report - with the detail specified - is likely (obviously subject to the data) to be acceptable to the NSW EPA, please let Sydney Zoo know and CES will start preparing the report ready for your review.

Thanks and best regards

Mark

Subject: RE: SSD 7228 - Sydney Zoo - Consent Condition C12 - Water Quality Monitoring Program - Consultation

Dear John,

I hope things are well with you. I am writing to you to commence the sign off process from the EPA on the Sydney Zoo stormwater management system. You might recall that Sydney Zoo was required under our development consent to adopt a stormwater quality monitoring program to ensure that our stormwater runoff complies with the

EPA requirements. The need for this monitoring protocol arose due to lack of available information on stormwater effluent from zoos.

Sydney Zoo opened on December 7th last year. We have had our animal collection in place for some months prior to that. We have been fulfilling our obligations for fortnightly water sampling, and as per the attached water quality monitoring report. We would like to cease this sampling process and for the EPA to sign off on the effectiveness of our stormwater treatment system, as contemplated in the report (ref section 5.2, page 8).

To facilitate this I would like to propose that Sydney Zoo prepares a report to document the satisfactory performance of the stormwater and enclosure effluent systems. This will document that under standard operation of the Sydney Zoo, there are no discharges (from either sedimentation basin) off-site and how the two streams are managed. It will also document that off-site discharges to the west have occurred on three separate occasions, after significant rainfall. Monitoring of these discharges and twice monthly monitoring of Eastern Creek by CES has not detected any significant impact in Eastern Creek as a result of these discharges.

Our consultants, CES, will prepare a report which will include and review the last six months of water quality monitoring. The review will consider the upstream, theoretical discharge point and downstream concentrations in Eastern Creek. We will assess the three separate discharge events in 2020 and we will compare the concentrations detected during the operational monitoring with the baseline concentrations to demonstrate whether the stormwater and effluent system output is impacting (or not) Eastern Creek.

Please let me know if you have any concerns or comments about this process. I look forward to hearing from you.

Sincerely
Jake

Subject: SSD 7228 - Sydney Zoo - Consent Condition C12 - Water Quality Monitoring Program - Consultation
Importance: High

Jake,

Thank you for your email seeking consultation with the EPA concerning a draft Water Quality Monitoring Program prepared in accordance with the requirements of consent condition C12 for the above project.

Whilst the EPA has forwarded a courtesy copy of the following comments and recommendations to the Department of Planning and Environment (DPE), Sydney Zoo Pty Ltd remains responsible for appropriately amending the Water Quality Monitoring Program and referring same to the Secretary of the DPE for approval.

The EPA emphasises that its comments and recommendations should not be interpreted as an approval, licence or permit, nor do they represent such an approval, licence or permit.

1. Analytical suite – total nitrogen

The draft Water Quality Monitoring Program does not include Total nitrogen in its proposed analytical suite. However, consent condition C12 (c) requires "... sampling of analytes presented within the Supplementary Information, in addition to oxides of nitrogen (as nitrogen), filterable reactive phosphorus (as phosphorus) and dissolved oxygen (% saturation)" and the Supplementary Information included consideration of Total nitrogen as an analyte.

2. Sampling frequency

The draft Water Quality Monitoring Program proposes that “Sampling will continue on a monthly basis for the initial 6 months during the operational phase, then quarterly once the performance of the system and consistency of results has been validated by the EPA.”. However, consent condition C12(d) requires instead that the sampling frequency schedule includes “... sampling at every discharge point at least twice per month until the performance of the system has been validated by the EPA”.

3. Remedial actions triggered by unsatisfactory monitoring results

The draft Water Quality Monitoring Program proposes that “In the event that satisfactory treatment performance of waters intended for discharge is not achieved, Sydney Zoo will assess the extent of the problem and work with the EPA to modify or improve the stormwater system through additional treatment systems, as appropriate.” However, consent condition C12(e) requires instead that “... a protocol detailing the remedial action/s that will be undertaken in the event that satisfactory treatment performance in accordance with ANZECC (2000) has not been achieved including when each triggered remedial action would be completed.”

Recommendations

The EPA recommends that the proponent amend the draft Water Quality Monitoring Program to :

- (a) ensure that the analytical suite includes Total nitrogen as an analyte;
- (b) ensure that sampling at every discharge is undertaken at least twice per month until the performance of the system has been validated by the EPA; and
- (c) explicitly detail –
 - (i) the specific remedial actions that would be triggered by unsatisfactory water monitoring results,
 - (ii) the timing of the remedial actions referred to in paragraph (i) above, and
 - (iii) the assessment criteria (in respect of each analyte at each discharge) that will be used to assess treatment performance.

Regards

John Goodwin

General Comments

This report supersedes any previous report(s) with this reference. Results apply to the sample(s) as submitted, unless the sampling was conducted by ALS. All pages of this report have been checked and approved for release.

Where a result is required to meet compliance limits, the associated uncertainty **must be** considered. Refer to the ALS Contract [Terms and Conditions](#) for details, and EnviroMail 53 for a guide on how to interpret the measurement of uncertainty (MU).

Black shading is applied where the result is equal to or greater than the guideline upper limit or the result is equal to or lower than the guideline lower limit. Any shading applied does not take into account measurement uncertainty.

Key : \emptyset = ALS is not NATA accredited for these tests.

A copy of this report will not be forwarded to Sydney Water unless otherwise instructed.

Analysis conducted on samples as received.

Mass discharged calculation is not covered by ALS scope of accreditation.

Sample and Sampling information supplied by ALS

SAMPLING CONDITIONS: Grabs per bottle: 30, Sample Interval: 1kL or min, mL per grab:300mL, TWDF: 100%

pH on site both was not reported as there was no flow.

EA016(0.6): Total Dissolved Solids calculated by multiplying Electrical Conductivity by a factor of 0.6.

Sodium Adsorption Ratio (where reported): Where results for Na, Ca or Mg are <LOR, a concentration at half the reported LOR is incorporated into the SAR calculation. This represents a conservative approach for Na relative to the assumption that <LOR = zero concentration and a conservative approach for Ca & Mg relative to the assumption that <LOR is equivalent to the LOR concentration.

General Comments

This report supersedes any previous report(s) with this reference. Results apply to the sample(s) as submitted, unless the sampling was conducted by ALS. All pages of this report have been checked and approved for release.

Where a result is required to meet compliance limits, the associated uncertainty **must be** considered. Refer to the ALS Contract [Terms and Conditions](#) for details, and EnviroMail 53 for a guide on how to interpret the measurement of uncertainty (MU).

Black shading is applied where the result is equal to or greater than the guideline upper limit or the result is equal to or lower than the guideline lower limit. Any shading applied does not take into account measurement uncertainty.

Key : \emptyset = ALS is not NATA accredited for these tests.

A copy of this report will not be forwarded to Sydney Water unless otherwise instructed.

Analysis conducted on samples as received.

Mass discharged calculation is not covered by ALS scope of accreditation.

Sample and Sampling information supplied by ALS

SAMPLING CONDITIONS: Grabs per bottle: 11, Sample Interval: 1kL, mL per grab: 300mL, TWDF: 100%

pH on site both was not reported as there was no flow.

EA016(0.6): Total Dissolved Solids calculated by multiplying Electrical Conductivity by a factor of 0.6.

Sodium Adsorption Ratio (where reported): Where results for Na, Ca or Mg are <LOR, a concentration at half the reported LOR is incorporated into the SAR calculation. This represents a conservative approach for Na relative to the assumption that <LOR = zero concentration and a conservative approach for Ca & Mg relative to the assumption that <LOR is equivalent to the LOR concentration.

Construction & Demolition Waste Break-Up Comparison by Project Period

Emission/Energy Source (used on Project Site)	Consumption Quantity	Units
Diesel	54.60	Litres

NGERS | ISCA | GREENSTAR Compliant Reporting

Grasshopper Environmental waste data reports verify the percentage of waste that has been processed and allocated for re-use.

We track the waste stream from collection through sorting and disposal, providing you with an unbroken audit chain for every Skip Bin that leaves your site. Our waste collections services have received the GECA Ecolabel certification.

Grasshopper Environmental is fully compliant with Green Star, ISCA & NGERS reporting standards.

Subject: The Sydney Zoo – 2024 Independent Environmental Audit Report

Dear Mr Burgess

I refer to your submission of the 2024 Independent Environmental Audit (**IEA**) Report and Response to Audit Recommendations (**RAR**), SSD-7228-PA-16, for the period of 9 December 2019 to 17 April 2024, submitted as required by Schedule 2, Condition D12 of SSD-7228 as modified (**consent**) for the Sydney Zoo (**project**), to the NSW Department of Planning, Housing and Infrastructure (**NSW Planning**) on 2 August 2024.

NSW Planning considers the IEA report and RAR to generally satisfy the reporting requirements of the consent. Please note that acceptance of this report is not an endorsement of the compliance status of the project.

The non-compliances identified with implementation of the Operational Environmental Management Plan and sub-plans (**OEMP**) relating to waste management under Condition D6, (Geosyntec IDs G214, G219 and G220) will be assessed further in accordance with the NSW Planning Compliance Policy and further correspondence may be sent to you in relation to these matters.

The remaining non-compliances with C32C (ID G72), D11 (ID G106) and the other identified non-compliances with the OEMP (IDs G200, G227 and G228) have been assessed with NSW Planning on this occasion determining to record the breaches with no further enforcement action proposed. However, please note that recording these breaches does not preclude NSW Planning from taking an alternative enforcement action, should it become apparent that an alternative response is more appropriate.

As the non-compliance identified with Condition C32B (ID G71) has been considered previously and a breach recorded as per the letter issued on 12 August 2022, NSW Planning considers the matter to be closed and makes no further comment.

Please include a status update for all actions provided in the RAR in the next Annual Review and IEA report, until all actions are completed.

As required by Schedule 2, Condition D13(a)(vii) of the consent, please ensure that a copy of the IEA report and RAR are publicly available on the project's website.

Should you wish to discuss the matter further, please contact Samuel Condon, Senior Compliance Officer on (02) 8275 1169 or email compliance@planning.nsw.gov.au

Yours sincerely

Subject: Approval of the Traffic Verification Report for Sydney Zoo Early Morning Organised Tours

Dear Mr Burgess

I refer to the Traffic Verification Report submitted on the NSW Major Projects Portal as required by Condition C5C of Schedule C of SSD-7228, as modified.

The Department of Planning, Housing and Infrastructure (Department) has reviewed the Traffic Verification Report and concludes the report addresses the relevant condition. As such, the following plan is approved:

- *Sydney Zoo – MOD 9 – Organised Tours during Pre-Opening Hours Traffic Verification Report*, prepared by The Transport Planning Partnership, dated 24 October 2024, Version V03.

You are reminded that if there are any inconsistencies between the approved plans and the conditions of consent, the conditions prevail.

Please ensure you make the approved documents publicly available on the project website at the earliest convenience.

Should you have any further enquiries, please contact Sally Munk, Principal Planner, Industry Assessments, at the Department on (02) 9274 6431 or via email at sally.munk@planning.nsw.gov.au.

Yours sincerely

Shaun Williams
A/Team Leader
Industry Assessments

As nominee of the Planning Secretary

Appendix H – Staff Travel Survey Results – September 2024

Q1 How do you travel to work?

Answered: 83 Skipped: 0

Staff Transport Survey

ANSWER CHOICES	RESPONSES	
Drive	87.95%	73
Public Transport	8.43%	7
Bike Ride	0.00%	0
Walk	0.00%	0
Ride Share	1.20%	1
Other (please specify)	2.41%	2
TOTAL		83

Q2 Did the employee handbook/induction provide enough information on other modes of transport to work beyond using your private vehicle?

Answered: 83 Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes	62.65%	52
No	37.35%	31
TOTAL		83

Q3 If footpaths were available outside of the Zoo, would you consider using other modes of transport (i.e. walking, bike riding)?

Answered: 83 Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes	20.48%	17
No	79.52%	66
TOTAL		83

Q4 If you use public transport, is it frequent enough to make getting to and from work easy for you?

Answered: 77 Skipped: 6

ANSWER CHOICES	RESPONSES	
Yes	9.09%	7
No	38.96%	30
N/A	51.95%	40
TOTAL		77

Q5 Would you contemplate using other modes of transport if it was easier or quicker to get to and from work?

Answered: 83 Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes	61.45%	51
No	38.55%	32
TOTAL		83
