

# Sydney Zoo survival guide for teachers

**'Warami'**  
(Darug for hello)  
How exciting that  
you've booked a  
school visit  
to Sydney Zoo!

**Please read this information to all staff and students attending on the day to ensure a safe and enjoyable visit.**

- **Be Covid Safe and stay 1.5m from other visitors and use hand sanitiser**
- Please keep your items and rubbish safe and place in appropriate bins – protect our animals by ensuring rubbish doesn't end up in enclosures
- **Respect other visitors and keep noise to a minimum when walking around the zoo (please don't scream, make animal noises or run – this can scare animals)**
- Please stay together in allocated groups – if anyone is lost or requires first aid, they can approach a Sydney Zoo staff member
- **Please only walk when in zoo grounds and keep to the paths (the trees are all new so please don't climb them or the fencing)**
- Turn off your flash when looking at internal exhibits – flash can hurt animal's eyes
- **Be safe and sensible and above all have fun!**

Please remain inside the zoo grounds while waiting for your bus to arrive – if your bus parked for the day you may walk straight down to coach parking when ready

**Please ensure students are in groups no larger than 20 when moving around the zoo**  
**Reduce touch points by not touching glass or enclosures when looking at the animals**
